RESOLUTION.—In Public Works Department Resolution No. 635-E. G., dated 8th May 1872, the main features of the reorganization of the Public Works

*Proceedings of the Madras Government, Public Works Department,
9th September 1872.*

Establishments in Madras were approved, and it was said in regard to the subordinate establishments that there was no objection to the proposals except that the established grades should be maintained. The Madras Government now recommends the immediate introduction of that portion of the scheme which relates to the grading of Overseers in three grades on Rupees 60, 80 and 100, on the understanding that the increased charge which the measure will involve will be met from expected savings in the Budget provision for the current year under the head "Establishment." Under the rules of the Public Works Code of the Government of India, there is no restriction as to the number in each grade of Overseer, and the number of Overseers out of the total number of upper subordinates proposed for Madras would under those rules be 156, while the number in the present proposition is 187.

2. The Madras Government proposes to place so many in each grade only. In both the above respects therefore the proposal of the Madras Government is within what is allowed by the Code Rules. There appears, therefore, in this department no objection to the immediate introduction of this part of the scheme on the condition above named.

ORDER.—Ordered that this Resolution and the papers now read be forwarded to the Financial Department for further consideration.

Resolution

In P.W.D. Resolution No. 635 & S. dated 8th May 1872 the main features of the reorganization of the Public Works Establishments in Madras were approved, and it was said in regard to the subordinate

Establishments that there was no objection to the proposals except that the Established grades should be maintained. The Madras Government now recommends the immediate introduction of that portion of the scheme which relates to the grading of overseers in 3 grades on Rupees 60, - 80 - and 100, on the understanding that the increased charge which the measure will involve will be met from expected savings in the Budget provision for the current year under the head Establishment. Under the rules of the P.W. Code of the Government of India there is no restriction as to the number in each grade of overseer, and the number of Overseers out of the total number of Upper Subordinates proposed for Madras, would under those rules be 150, while the number in the present proposition is 187. -

The Madras Government proposes to place so many in each grade only. - On both the above respects therefore the proposal of the ^{Mad} Government is within what is allowed by the Code Rules. There
