177-176 Mis.

Dated 12-9- 1872.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 12th September 1872.

No. 177. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 24th August 1872, No. 1,965:—

With reference to G. O., No. 1,822, dated 1st August 1872, I have the honour to state that there are large under-sluices in both the Godavery and Kistna anicuts, and through these the fish can easily get up the river when there is a good deal of water in it, as then, owing to the rise of the backwater, there is little or no current; probably this will account for the fish not using the ladder in the Kistna, for there is an abundance of fish always in this river above the Godavery anicut.

No. 178. Order thereon, 12th September 1872, No. 2,168.

IRRIGATION, No. 8.

Ordered to be recorded.
