Public Works DEPARTMENT.

G.O. No. <i>2243</i>	Press
<i>300, 301,</i>	Mis.
Dated <i>21-9-</i>	<i>18 72</i>

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
21st September 1872.*

No. 300. Read the following letter from the Officiating Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 29th August 1872, No. 1,192 :—

I HAVE the honour, with reference to G. O., No. 1,586, dated 1st July 1872, to inform you that the rearrangement of the ranges in the districts of this division will be brought into effect from the 1st September 1872. Orders have accordingly been issued.

2. I beg to forward, for the information of Government, statement showing the executive staff, etc., etc., for the ranges in each district, and I request the approval of Government to the following transfers :—

1st.—Ensign and Deputy Assistant Commissary J. Haddock, Assistant Engineer, 3rd Grade, from Cuddapah to Bellary District for the charge of Pennacondah Range.

2nd.—Mr. R. H. Hayes, Supervisor of the 2nd Grade, from Kurnool to Cuddapah District for employment in charge of sub-division of Madanapalli Range.

3rd.—Serjeant A. Crowe, Supervisor of the 2nd Grade, from Bellary to Kurnool District for permanent charge of Cumbum Range (*vide* G. O., No. 1,758, dated 24th July 1872).

3. As, however, Mr. Hayes is on sick leave, and is said to have disease of the heart, and cannot be considered likely to be again capable of hard work, I earnestly request that a thoroughly efficient Supervisor be at once posted to the Madanapalli Sub-division, which is terribly badly off for subordinates. The new Madanapalli Range has an area of upwards of 3,900 square miles; Government may, therefore, judge how much it is in want of hands, there being in one taluq of the sub-division an Acting Overseer, and in the other a young lad recently from the College, who being a Native Christian has not the smallest authority nor influence.

4. I would mention that I have appointed Supervisor Seton to the new Budwail Range, both because I consider him very competent and because his present range is two taluqs of the new range.

5. Should, however, Government wish to place an Assistant Engineer in charge of the Budwail Range, I should then be able to spare Mr. Thorpe for the Madanapalli Sub-division, an arrangement which would be acceptable to Mr. O'Ratigan, as Mr. Thorpe is a hard-working, intelligent man, of whom most favourable reports have been received. I would beseech the attention of Government to this most important matter.

6. I shall still require the services of an Assistant Engineer to be placed at my disposal for employment in the Cantonment of Bellary, see remarks against "Bellary" in above G. O.

7. I observe that no orders have been issued as to the particular duties to be assigned to those Sub-Engineers and Supervisors who, in consequence of the abolition of their ranges, have been placed under the orders of Range Officers of the new ranges. In all cases where this occurs, I have posted these Upper Subordinates to the charge of a sub-division of the range, which comprises in,

Pennacondah Range.

Proceedings of the Madras Government, Public Works Department,
21st September 1872.

Statement showing the rearrangement of Ranges prepared agreeably to G. O., No. 1,586, dated 1st July 1872.—(Concluded.)

BELLARY,
29th August 1872.

(Signed) J. VERTUE, Major, R.E.,
Officiating Superintending Engineer, 3rd Division.

Proceedings of the Madras Government, Public Works Department,
21st September 1872.

No. 301.

ORDER THEREON, 21st September 1872, No. 2,243.

ESTABLISHMENT, No. 22.

THE transfers of Range Officers proposed by the Superintending Engineer of the 3rd Division are approved.

2. Mr. Supervisor Hayes will be required to take up the sub-divisional charge to which Major Vertue has appointed him. If incapable of performing its duties, report to that effect will be made in due course.

3. An Assistant Engineer is not at present available for Bellary; but Conductor and Sub-Engineer Jackson has been ordered to proceed to that station for employment under the Executive Engineer.

4. Major Vertue's arrangements for utilizing the services of extra Upper Subordinates in ranges seem well calculated to meet the object in view, namely, assisting Range Officers to check executive details. Sub-divisional Officers will have establishments on the following scale, namely:—

	RS.
1 Writer and Accountant	25
2 Lascars	14
	39

which the Controller will be authorized to pass on receiving intimation of date of taking charge and entertainment. He will also receive completion certificates bearing their signature and the counter-signature of Range Officers.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, 3rd Division.
To all other Superintending Engineers.
,, Major R. B. Kennedy.
To the Controller of Public Works Accounts.

To,

The Secretary to Government

P.W. Department

Enclosures. /

Fort Saint George

Sir,

I have the honor with reference to G.O. No 1586 dated 1st July 1872, to inform you that the re-arrangement of the Ranges in the Districts of this Division will be brought into effect from the 1st September 1872. Orders have accordingly been issued.

2. I beg to forward for the information of Government, Statement showing the Executive Staff No 46 for the Ranges in each District and I request the approval of Government to the following transfers:-

I Ensign and Deputy Asst. Commissary J. Haddock. Asst. Engineer 3rd Grade from Madras to Bellary District for the charge of Pennacandali Range.

W.H.

II. Mr. H. H. Hayes, Supervisor of the 2^d grade, from Turnool to Suddur District for employment in charge of Sub-Divisions of Madanapalli Range.

III. Sergeant A. Grove, Supervisor of the 2^d grade, from Bellary to Turnool District for permanent charge of Suddur Range - (Vide G.O. No. 1758 Dated 24th July 1872)

3. As however Mr. Hayes is on Sick Leave, is said to have disease of the heart and cannot be considered likely to be again capable of hard work, I earnestly request that a thoroughly efficient Supervisor be at once posted to the Madanapalli Sub-Division, which is terribly badly off for Subordinates. The new Madanapalli Range has an area of upwards of 3900 Square Miles; Government may therefore judge how much it is in want of hands; there being in one Talook of the Sub-Division an Acting Oversee, and in the other a young lad recently from the College, who being a native Christian, has not the smallest authority nor influence.

4. I would mention that I have appointed Supervisor Seton to the new Bidwai Range, both

both because I consider him very competent and because his present Range is 2 Talooks of the new Range.

5. Should however, Government wish to place an Assistant Engineer in charge of the Bidwai Range, I should then be able to spare Mr. Thorpe for the Madanapalli Sub-Division, an arrangement which would be acceptable to Mr. O'Hanlon, as Mr. Thorpe is a hardworking, intelligent man, of whom most favorable reports have been received. I would beseech the attention of Government to this most important matter.

6. I shall still require the services of an Asst. Engineer to be placed at my disposal for employment in the Cantonment of Bellary - see remarks against "Bellary" in above G.O.

7. I observe that no orders have been issued as to the particular duties to be assigned to those Sub-Engineers and Supervisors who, in consequence of the abolition of their Ranges, have been placed under the orders of Range Officers of the new Ranges. In all cases, where this occurs, I have posted these Upper Subordinates to the charge of a Sub-Division of the Range, which

comprizes

compurges, in each case, two Talooks. Their duties
II. I take to be, to inspect and check-measure
for works, examine Estimates, design works &c. in
plot sheet, I am of opinion that their duties will
not in all respects, be similar to what they had to
III perform as Range Officers, excepting of course,
from that independent responsibility which they pos-
sessed, and which would now devolve upon the
NW Range Officers (under the re-arrangement Scheme),
3. who will be held responsible for the proper ad-
ministration of all the Talooks in their Range.
to 8. I request to know if Government approve
of the orders I have issued upon this matter, and
for whether they quite meet the object in view for
the better working of the Department in its Ex-
ecutive branch.

to 9. From the frequent reports received by G-
overnment from the Controller of NW Accounts of
the non-receipt of Completion Certificates, I beg
to submit that with the charges extended in most
cases, the difficulty in the timely submission of
these Certificates will be enhanced. It is therefore
a matter for consideration if such Certificates
can be granted by Upper Subordinates in
Sub-Divisional

Sub-Divisional charge - The Range Officer being
required to counter-sign whether the work was in-
spected by him or not.

10. I observe that no provision has been made
for lascars for those Upper Subordinates posted to
do duty in Ranges. Their work will require con-
stant travelling and be such as to require the
services of lascars. I request early orders on this point.
11. The fact that no writer has been allowed, leads
me to think that they will have no office work
to perform beyond the mere passing on of papers.
(except accounts and all matters connected therewith)
from the Officers to the Range Officer.
12. As the number of 2^d Class Range Officers has
been increased, there will be a difficulty to pro-
cure Draftsmen & Estimators. There will, I fear,
also be some difficulty in getting proper Candi-
dates for Appointment as Asst. Accountants
on No 25 in several of the 2^d Class Ranges. How-
ever, until it is known what Establishment will
be allowed for a District Engineer, the best ar-
rangements possible will be made.

I have the honor to be

Sir

Your most Obedt. Servant

Lancey Little Major R.E.
Off. Sub-Divisional Engineer
