FINANCIAL DEPARTMENT.

Simla, 24th August 1872.

Read a communication from the Public Works Department, No. 199 A. I., dated the 5th July, on the subject of the deficit in the revenue of the Madras Irrigation and Canal Company for 1872-73.

2. In reviewing the Madras Irrigation Budget Estimate for 1872-73, the Government of India in the Public Works Department directed that the deficit of Rupees 50,305-7-3 should be made good from the Ordinary Agricultural grant to the Madras Presidency.

3. The Government of Madras remonstrates against these orders, and urges that the Irrigation project should be looked upon as Imperial, and any deficit in revenue, like a deficit in interest on capital, made good by a special grant.

4. The Public Works Department are disposed to agree with the Madras Government in thinking that the entire burden of the deficit should not be thrown upon that Government; but, as the matter has been referred to the Secretary of State, that department suggests that the Government of Madras be informed in the meantime that if it is finally decided to meet the charge from the ordinary grant for Agricultural works, the Government of India will be prepared to make an additional allotment for the purpose later in the year, when the necessity for such an allotment shall have been shown.

5. The Governor-General in Council in this department considers the claim of the Madras Government equitable, and has, therefore, no objection to the proposed reply.

ORDER.—Ordered that a copy of the above be forwarded to the Public Works Department for information and further orders.
