*Proceedings of the Madras Government, Public Works Department,
4th October 1872.*

Read the following papers:—

No. 52. From the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Coimbatore, 13th March 1872, No. 267.

With reference to G. O. No. 2,963 of 23rd November 1871, I have the honour to request the sanction of Government may be obtained to head-quarters of the Irrigation Range, Coimbatore District, being changed from Erode to Bhowany for the reasons noted below.—

I—Bhowany is more centrally situated than Erode as regards the different works comprised in the range as now constituted.

II—Bhowany is at the head of one of the most important Irrigation works in the district, the Calingaroyen Channel, and it is therefore desirable that the Engineer in charge should be located there.

III—Bhowany is supposed to be less sickly than Erode, owing to its being somewhat higher and further away from the paddy-fields than Erode.

IV.—There is better accommodation for both Range Officer and Office Establishment at Bhowany than at Erode, and the change will cost nothing to Government.

No. 145.

TRUE copy forwarded to the Secretary to Government, with reference to his memorandum No. 102 of 13th September 1872.
