G.O. No. 144, 195	8898	Press / Mis.
Dated	11-10	18 [illegible]

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 11th October 1872.

No. 194. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Acting Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Dowlaishweram, 22nd August 1872, No. 1,931 :—

THE Central Delta Project having to be revised, I have the honour to request you will be good enough to obtain the sanction of Government to my building three rest-houses in that part of the district as soon as possible. There is now absolutely no place whatever where shelter can be obtained in the most inclement weather, and this at times is very damp indeed.

2. I would propose to build these at—

Rallee.
Amalapore.
Rajole.

No. 195. ORDER THEREON, 11th October 1872, No. 2,398.

IRRIGATION, No. 2.

HIS Excellency the Governor in Council observes that no funds are available for the construction of rest-houses; they should be provided for in the estimate for the Central Delta. The revised project entails but little field-work if the original levels sent up were correct, and as the field-work required would not occupy an officer or Surveyor more than a month or six weeks, and as no rest-houses existed when the original project was matured, His Excellency in Council sees no necessity for the construction of rest-houses in the Central Delta at present, the more so as the revised project should be matured and submitted far earlier than the rest-houses if sanctioned could possibly be completed.
