Proceedings of the Madras Government, Public Works Department, 12th October 1872.

No. 200. Read the following Endorsement of the Officiating Superintending Engineer, 3rd Division, dated Bellary, 19th September 1872, No. 1,423:—

From the Executive Engineer in charge Madanapally Range, to the Superintending Engineer, 3rd Division, dated 8th September 1872, No. 511.

I HAVE the honour to bring to your notice the fact that I have to pay monthly from my private funds the cost of carrying about office-records when absent from head-quarters, which charge should, I consider, be defrayed by Government. Under the circumstances I beg to request that you will represent the matter to Government in order that this burden may be taken off my shoulders.

2. This range, as you are aware, was large enough already, but has lately been increased by another taluq, so that its area is now about 4,000 square miles. Before, however, the enlargement in area took place, I have had to be four and often six weeks absent from head-quarters, thereby necessitating the taking about of a number of records with me to enable me to carry on my office-work, and in the new arrangement things will be much worse in this respect. I trust therefore that Government will sanction the hire of an office-bandy for conveying the records for the days actually travelling.

3. In conclusion, I beg to inform you that when in charge of Dindigul Range, Madura District, Government were pleased to grant me an office-bandy for the conveyance of records on the representation of the Superintending Engineer Major H. L. Prendergast, and that Range was not nearly as large as this one is.

FORWARDED for the favourable consideration of Government.

2. The new Madanapally Range* is one of the largest, if not the largest, in the Presidency. The Cuddapah District is an expensive one, and Government will perceive from Mr. O'Ratigan's letter that there is a precedent for the charge now recommended for sanction.

* Nearly 4,000 square miles.
