Dated	19 10	18 12

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 18th October 1872.

No. 321. Read the following letter from the Officiating Deputy Secretary to the Government of India, Public Works Department, (Railway,) to the Secretary to the Government of Madras, Public Works Department, (Railway,) dated Simla, 30th September 1872, No. 1,553-G. R:—

I AM directed to request that the Government of India may be favoured with a statement, if it can be prepared without much trouble, of the approximate yearly consumption on the Madras Railway of all stores which are procured from England. The indents which are submitted for sanction from time to time show the average consumption of those stores of which a supply is required, but not of all stores that are used; on the latter point information is needed in dealing with indents for the State Railways, and the Government of India believe that the experience of the Madras Railway will be of much value in a consideration of the probable requirements of the lines now under construction.

No. 322. ORDER THEREON, 18th October 1872, No. 2,456.

RAILWAY, No. 46.

THE Agent and Manager of the Madras Railway will be desired to furnish the Statement required by the Government of India.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Consulting Engineer for Railways.

Exd. S. T. Austin.

All communications should be addressed to the Secretary.

To

The Secretary to the Govt. of Madras
Public Works Department (Railway)

Simla, 30th September 1872.

Sir,

I am directed to request that the Government of India may be favoured with a statement, if it can be prepared without much trouble, of the approximate yearly consumption on the Madras Railway of all stores which are procured from England. The indents which are submitted for sanction from time to time show the average consumption of those stores of which a supply

is required, but not of all stores that are used, on the latter point information is needed in dealing with indents for the State Railways, and the Government of India believe that the experience of the Madras Railway will be of much value in a consideration of the probable requirements of the lines now under construction.
