From

H. D. E. Dalrymple Esqre.
Master Attendant
Administrative Department
Madras.

To

The Honourable R. S. Ellis C.B.
Chief Secretary to Government.
Marine Department
Madras.

Sir,

With reference to order of
Government Public Works Department.
No. 1880. dated 9th August 1872, I have the honour
to inform you that the cost of a Light
house Establishment on Point Cadia-
-patam will be about the same as
that of the Tuticorin (Hare Island)
Lighthouse, Viz.t Rupees 42 per months.
2. For a Lighthouse Esta-
-blishment on Kotah Islet four times
the amount will be required besides
the expense of keeping up a comma-
-nication

-nication between the Island and
Colachul Taray four miles distant.

I have the honour to be
Sir
Your most obedient Servt

W. D. J. Dalrymple
Master Attendant
Administrative Departt.

Enclosure

Transferred to the Public Work. De-
partment with reference to paragraph 2 of
the order in that department dated the 9th
August 1872. No. 1880.

From The Supt Engineer 8th Div. H.E. No. 2191/76 4th Augt 72
From The Master Attendant Administrative Dept. 4645/19 " " "
Pro. of Govt Marine Dept. 2163/29 " " "

R.O. No. 210 of 25 Sept 72

His Excellency the Governor in Council resolves to abide by the decision arrived at in Marine Department Order No. 262 of 15th Septr 1871 as to the class of light to be exhibited at Cape Comorin, and the neighbourhood of Rocodile Rock respectively; slightly modified by the conclusions of the Trinity Board after careful consideration of the

To The Public Works Department
Sir
I have the honour to request that you will be pleased to cause a Light House, established thereon, to be exhibited at Point Calimere Station, from the 1st proximo.
Dated, 19 August 1872
Received 22 August 1872
No. 2482.
Note. It is intended that the Light House will be the property of Government

whole subject - Namely
that a 4th order bright
revolving light shall
be shewn at Cape Comorin
at an elevation of not
less than 150 feet above
sea level; and a 1st Order
bright fixed light near
Crocodile Rock, at an
elevation of 200 feet,
supplemented by an
auxiliary red light
in a window at the
base of the tower -

The sum of Rs. 11,750
sanctioned in Marine
Department Order No.
316 of 14th Dec. 1869
will be entered in the

I should think be prob
economy to
add 10 ft. to
walls the clear
twelve for a
1st class light
should this be
found desirable
hereafter. Cl ht
last trip, 160 ft
will do this.
his site is 80 ft
above sea level.

J.D.S

of 1873/74, according
what is required at Cape
Comorin; for which place
a 4th Order revolving
bright light is already
available at Tuticorin -
The exact site will be
settled by the Master
Attendant (Marine
Department) in direct
communication with the
Superintending Engr 8th Div.
as it is not known
how far either of the
sites recommended in
the former's letter No. 7026
of 4th Dec. 1871 agrees
with that shewn in the
Tracing sent with the
Collr's letter No. 2191 of
8th August 1872 — Shewn

Mr. Dalrymple be
able to suggest any
savings on allotments
for Marine Works of the
Current year, the same
may be utilized in
making a commencement
of the work -

However desirable
it may be to shew the
light, protective against
the damages of Crocodile
Rock on either of the
Islets between it and
the main land, it has
been conclusively shewn
by Mr. Dalrymple
and Lieut. Col. Roberts
that their inaccessibility
and

and inadequate
~~insignificant~~ area
~~size~~ preclude the adop
tion of either site. Could
these objections be waived
as well as that of com
parative original cost
and maintenance, the
still
Rock itself would have
the preference; but all
things considered His
Excellency in Council
concludes that a site
on the Mainland
must be adopted -
Should no eligible site
of greater elevation be
available than that of
the Site shewn in the
Superintending Engineers'
tracing B, he will plan
and

and estimate for a Column of 120 feet in height from base to light, while the allaster Attendant will make arrangements for supply of the requisite light —

The subject of a Light on the Island of Minicoy will be considered in connection with that of a Ship Canal at Pamben —
