RESOLUTION.—The Governor-General in Council is pleased to lay down the following general rule for dealing with the second-hand and unserviceable stores of Guaranteed Railways in supersession of all previous orders on the subject.

2. All stores and materials issued for capital or revenue purposes, when no longer required, should be returned into store, and there accounted for in numbers, quantities, or weights only, without any value being assigned to them. The account originally debited with the cost of such articles should not receive any credit for the same until they are either issued again for other purposes or sold. Any of these returned stores and materials which are not likely to be again required, as well as those which are manifestly unserviceable, should be sold periodically when found convenient; but care should be taken that no undue accumulation of such articles is allowed to take place.
