From the Agent and Manager of the Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 11th October 1872, No. 738.

In acknowledging the receipt of your letter No. 830 of the 10th instant, I have the honour to inform you in reply to paragraph 8 that I have just seen Dr. vanSomeren, who tells me that he has determined in consultation with another Surgeon that one of the legs of Konjee Gocull Doss, the man who was most severely injured at Ballypully on the 28th ultimo, must be amputated.

2. Dr. vanSomeren has all along considered that amputation in this case would possibly be necessary, but he is most sanguine that the patient's life will be spared.

3. The other three cases in hospital are reported to be doing as well as could be desired.
