Proceedings of the Madras Government, Public Works Department, 16th November 1872.

No. 262. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Fort St. George, 11th November 1872, No. 1,832 :—

ADVERTING to the Proceedings of Government No. 2,614, dated 6th November 1872, I have the honour to subjoin a Memorandum of the estimated "Total Irrigation Receipts" and "Total Extraordinary Expenditure" in this Presidency for the current official year :—

	RS.
Receipts	50,000
Expenditure	10,00,000

2. The amounts passed in the Budget under these heads are Rupees 45,000 and 11,00,000 respectively.

3. The estimated short *outlay* is mainly attributable to the estimates for some of the works to which funds are assigned in the Budget not having yet been sanctioned. The actual outlay under "Extraordinary" under all heads during the first half of the year is in excess of four lakhs of Rupees, and judging from last year's accounts which show an expenditure of nearly Rupees 4,90,000 between 1st October 1871 and 31st March 1872, against a little more than two and three-quarter lakhs during the first half-year, there seems no reason why the present estimate of outlay should not be worked up to.

4. There is a slight increase in the amount entered above as the estimated *receipts* of the year. The figure noted has been arrived at after ascertaining the actuals of the first six months, and making due allowance for the revenue of the second half of the year, with special reference to the recorded receipts during the corresponding period of previous years.

5. I have only to add that the estimate of expenditure has been prepared in communication with the Chief Engineer for Irrigation.
