Dated	18 .

Not to be folded or roughly handled

Read the following papers :—

No. 376. From the Superintending Engineer of the 2nd Division.
(Here enter No. 51, dated 26th June 1872.)

No. 377. Do. do. do.
(Here enter No. 125, dated 7th November 1872.)

No. 378. Do. do. 3rd Division.
(Here enter No. ——, dated 31st October 1872.)

No. 379. Do. do. 5th do.
(Here enter No. 167, dated 28th October 1872.)

No. 380. From the Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Cuddalore, 17th October 1872, No. 153.

I HAVE the honour to report that the embankment across the Bahoor tank, sanctioned in G. O. No. 144 of the 13th April 1872, and for which Rupees 3,050, the amount of the estimate, were granted in G. O. No. 1,429 of the 8th June, cannot be carried out in the current official year, as the tank filled early this year, and as it is not likely that the site will be dry before March next. The amount granted for the work, less 10 Rupees, is therefore available for other services.

2. I take this opportunity to bring to the notice of Government that additional funds are urgently required in the Salem Range under "Repairs Agricultural," the supplemental grant of Rupees 18,000 made in G. O. No. 1,671 of 11th July 1872, being found quite insufficient to meet the cost of the emergent repairs of the works damaged by the storm of the 2nd May 1872, and by the subsequent heavy rains.

3. Out of the revised grant of Rupees 53,000 for the Salem District, Rupees 38,000 have been allotted for this range. The expenditure to the end of August* has been Rupees 29,964, and the balance is barely sufficient to complete the works in progress. There are still many more emergent works to be commenced, for several of which estimates have been received.

* Progress Report for September not yet received.

4. I have asked the Range Officer to report the additional grant which he could profitably lay out during this year; but in the meantime I would recommend that the sum of Rupees 3,040 surrendered in paragraph 1 of this letter be transferred to supplement the grant for "Repairs Agricultural" in the Salem District.

No. 381. From the Superintending Engineer of the 5th Division.

Proceedings of the Madras Government, Public Works Department, 23rd November 1872.

No. 385. ORDER THEREON, 23rd November 1872, No. 2,757.

ACCOUNT, No. 38.

THE applications for increased Agricultural allotments received from the several divisions up to date are shown in round numbers below:—

	Repairs.	Minor New Works.
	RS.	RS.
Kistna	17,000	.....
Nellore	.....	1,000
Salem	33,000	500
Tanjore	.....	2,500
Tinnevelly	20,000	.....
Coimbatore	20,000	1,500
	90,000	5,500

2. The latter sums are available from the reserve under new works, to which the sum of Rupees 3,040 is credited on account of the Bahoor tank work which it appears cannot be carried out in the current official year, but which the District Engineer of South Arcot will be responsible for carrying out, without further instructions, immediately that it can be undertaken.

3. The actual outlay up to 30th September on Irrigation Repairs being Rupees 5,55,430 against the grant of Rupees 14,10,000, the District Engineers of Kistna, Salem, Tinnevelly, and Coimbatore will be authorized to exceed their present allotments by the sums noted against those districts, the exact transfers to be made from other districts to make up the sum of Rupees 90,000 being hereafter determined on receipt of statements of credits which they cannot fully avail themselves of to be made by District Engineers after ascertaining the actual outlay on Irrigation works up to the 31st December, or earlier if they think fit.

Offg Superintending Engineer

2nd Division

To,

Colonel C. W. Walker R.E.

Secretary to Government

Public Works Department.

Sir,

With reference to your Memorandum
regarding the additional amounts required
for Agricultural and for Minor
Works, during the current official
year, in this Division, I have the honor
to inform you I applied, on the 30th
October, to the Acting Chief Engineer for
Irrigation for a further grant of
Rupees 15000, on account of Agricultural
Repairs, and I think it probable
that this sum will be insufficient,
that I can be allowed to anticipate
part of next year's grants
to enable me to meet
urgent calls for minor works

2. No extra grants for minor works
