Proceedings of the Madras Government, Public Works Department, 3rd December 1872.

No. 45. Read the following Endorsement of the Consulting Engineer for Railways, dated Madras, 14th November 1872, No. 616 :—

From the Agent and Manager of the Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 11th November 1872, No. 815.

I HAVE the honour to enclose, for the information of Government, the copy of a letter* received from the Consulting Physician reporting the death this morning of Gocull Doss, one of the men injured in the accident that occurred at Ballypully on the 28th of September last.

* No. 297, dated 11th November 1872.

2. I need hardly say that this has caused me the deepest regret, especially after the expectations which I have been led to entertain of the unfortunate man's ultimate recovery.

From the Consulting Physician, to the Agent and Manager of the Madras Railway Company, dated Royapooram, 11th November 1872, No. 297.

IT is with equal disappointment and sorrow that I report the death of Gocull Doss. He was seen by my Apothecary seated on his bed, at 6 this morning, apparently the same as yesterday ; but about half past 6, when seen by me, he was on his back restless and breathing laboriously and evidently sinking. Stimulants were administered, but failed to make him rally, and he died about 7 o'clock.

2. I felt anxious about him at my visit yesterday morning, when he was seen by Dr. Brockman as well as by myself. I then expressed my fears, in which Dr. Brockman participated, that pyœmia had taken place, and the man's death this morning has lamentably verified our apprehensions.

SUBMITTED for the information of Government, in continuation of this office letter No. 592, dated 2nd November 1872.

Dear Sir,

1. It is with equal disappointment and sorrow that I report the death of Gocul Doss - He was seen by my apothecary seated on his bed, at 6 this morning; apparently the same as yesterday; but about half past 6, when seen by me, he was on his back restless and breathing laboriously and evidently sinking: Stimulants were administered but failed to make him rally and he died about 7 o'clock.

2. I felt anxious about him at my visit yesterday morning, when he was seen by Dr Breackman as well as by myself. I then expressed my fears, in which Dr Breackman participated that Dysenia had taken place and the man's death this morning has lamentably verified our apprehensions.

Yours faithfully
