No. 151. Read the following letter from the Officiating Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Tanjore, 14th November 1872, No. 653 :—

I HAVE the honour to forward letter from the Assistant Engineer in charge of Combaconum Range applying for an allowance of Rupees 15 per mensem as office rent, and offering, if it is granted, to give up to the office a portion of a large house which he would rent only with a view to its accommodation.

2. The small building at present used as an office, which is situated at a considerable distance from the houses of European residents, is not sufficiently commodious for both stores and office, and it would be, in my opinion, to the advantage of the Government service that the office should be located in the residence of the Range Officer.

Sir

I have the honor to request, if you think fit that the usual allowance of Rs 15 per month may be allowed to this Range for provision for an Office. It has been customary for some years past for the Executive Officers in charge to provide accommodation for the office in their own houses; but as the rent for a large house is here Rs 50 I have no intention of giving so large a sum and will therefore be unable in future to provide for an office in my house unless the Rs 15 is allowed.

If this money is granted I can then get the large house and provide as usual for an Office. The Building which is supposed to be the office is at present used as a stone shed, in the event

Therefore

therefore of this being again occupied as the Office, another building will have to be provided for the Stores.
