G.O. No. 447, 448, 449, 3027 Press / Mis.

Dated 19-12- 1872

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 19th December 1872.

Read the following letters:—

No. 447. From the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 5th October 1872, No. 2,451.

I HAVE the honour to state, for the information of Government, that with reference to the standing orders of the Government of India, communicated with G. O., No. 2,635, dated 17th October 1871, Lieutenant Dorward, Assistant Engineer, whilst employed in the investigation of the Unoomoolanka project, which was ordered* to be put in hand as soon as an officer could be spared for the purpose, was allowed by me to make Ellore his temporary head-quarters. The Controller of Public Works Accounts has objected to this, and has declined passing travelling allowance to Lieutenant Dorward for certain days in July last, unless the sanction of Government is obtained for fixing the abovementioned station as his temporary head-quarters. This sanction I now request may be accorded.

* *Vide* G. O., No. 1,618, dated 4th July 1872.

No. 448. From the same Officer, dated Dowlaishweram, 27th November 1872, No. 3,080.

WITH reference to your memorandum of the 15th November 1872, No. 115, I have the honour to forward Lieutenant A. R. F. Dorward's Inspection Report for July last; the actual bill I am unable to send as it is with the Controller, but the amount claimed by him was as below:—

One Inspection Report.

	RS.	A.	P.
Eight days' half travelling allowance	16	0	0
Mileage 27, at 8 Annas	13	8	0
Three days' travelling allowance in full	12	0	0
Total...	41	8	0

I passed Rupees 76 to him for the 19 days he was at Pedda Pothaveram, travelling for more than 5 miles a day in prospecting the country for the proposed reservoir, maintaining his camp standing, and in taking the necessary levels for commencing his work.

2. Prior to the 17th July, Lieutenant Dorward was employed on the anicut and head sluices, stone quarries, lime quarries and kilns, boat office, the bank canal as far as Kadapoolankah lock, the bank road from Vizeasweram to Polarum, the river dredging and protection works, and the Rajahmundry road repairs.

3. The Survey Establishment was entertained as below:—

2 Lascars on the 11th July 1872.
2 Do. and one Surveyor on the 13th July 1872.
The rest on the 15th July 1872.

4. His fixed quarters prior to 12th July was Dowlaishweram, as sanctioned by Government in G. O. of the 6th March 1872, No. 600; in consequence of Mr. Martin's falling sick after two years' work in the Yernagoodem Taluq, I made

the exchange between these officers in order to get the project completed, at the same time that Mr. Martin was able to recruit his health. Lieutenant A. R. F. Dorward having finished his field work has now been ordered to join the Western Delta Range under Mr. Walch, as proposed by the Chief Engineer for Irrigation in paragraph 7 of his Note relating to the Godavery Delta, printed in G. O. of the 18th April 1871, No. 77. I trust, under the explanations now submitted, the Controller may be instructed to pass the bills.

No. 449. ORDER THEREON, 19th December 1872, No. 3,027.

ESTABLISHMENT, No. 34.

HIS Excellency the Governor in Council authorizes Ellore being regarded as Lieutenant Dorward's temporary head-quarters during his employment on the investigation of the Unoomoolanka project, and the Controller will audit that Officer's travelling allowance bills accordingly.
