Dated 19-12-1872.

Proceedings of the Madras Government, Public Works Department, 19th December 1872.

No. 455. Read the following letter from the Officiating Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Camp at Triviar, 31st October 1872, No. 610 :—

I HAVE the honour to forward an original letter from Sub-Conductor Falvey, Cantonment Overseer at Trichinopoly, requesting permission to be examined for the grade of Assistant Engineer by the Madras Civil Engineering College without passing the F. A. Examination.

1 Original letter.
1 Original certificate.
(To be returned.)

2. Sub-Conductor Falvey forwards a certificate of his having already passed the Non-professional Tests for Assistant Engineer, granted by the Principal of the Roorkee College, which is enclosed, and in support of his request states that "a similar concession was granted to Mr. Supervisor Ellis in 1870."

3. As far as I understand the orders of Government on the subject, a certificate of having passed the F. A. Examination is required as a proof that the candidate for situation of Assistant Engineer has received a liberal education, and in one instance at least a certificate of having passed the Non-professional Tests for Assistant Engineer has been accepted as such a proof. From what I know of Sub-Conductor Falvey, I am prepared to recommend that he may be exempted from passing the F. A. Examination, but the case must be treated as a special one, and I beg to suggest the advisability of laying down a general rule on the subject. I am not acquainted with the comparative value of the tests used in both examinations in proof of liberal education, but I can see no reason why a Civil Engineering College should not be able to test the capabilities of a candidate.

4. Sub-Conductor Falvey holds testimonials of the highest character; he passed a highly creditable examination at the Civil Engineering College, Madras, and some of his papers, which I had an opportunity of seeing, as I was one of the examiners at his final examination, were much beyond those of ordinary students. He has worked well in this division, and given every satisfaction to his superior officers, and has been recommended for promotion to Supervisor.

No. 456. ORDER THEREON, 19th December 1872, No. 3,031.

ESTABLISHMENT, No. 35.

HIS Excellency the Governor in Council is not prepared specially to exempt Sub-Conductor Falvey from the general rule laid down, to the effect that candidates for permission to undergo examination for Certificate of qualification as Assistant Engineers shall have previously passed the F. A. Examination of the Madras University, or can give satisfactory proof of having received a liberal education. The Non-professional Test Certificate of the Roorkee College is not held adequately to meet the latter condition.

My dear Walter

I return herewith
the enclosed Essay of
Egbert Talcott's Freshman

of the letter I wrote
to him by Ray. on the
subject. From the
letter you will learn
that after all Fatsey
don't do any thing
very much out of the

way of this exam.
here.

Certainly for the last
9 years no certificates
of qualifn. at this Depart.
have been granted to
any who have not
gone through the regular
courses in the College
previous here - & I believe
some have even been
granted -
Mr Ellis' case is
scarcely a precedent
because in his case

there was no College
Professor & the Board
possibly took that into
consideration when they
exempted him from
reading the F.A. depart.
prior to appearing for
the exam. for Assist Engr.
- so long as there is
to be a distinction of
merit in the
Certificates
College here & there
the B. of E. should
in the A. Division
it is highly desirable

to allow students of the lower grade to be examd for the qualifications of the higher grade as it would tend to confuse the distinction which it is absolutely necessary to keep up.

In the case however of the effect of such examinations being habitually permitted by the Inspectors will be that every teacher who is clever at his books will naturally enough be

induced to neglect his duties more & more to study for the title of a grade for he can succeed in obtaining the requisite certificates of qualification he will then be sure of a right to promotion to the higher grade (although though in every respect but his book knowledge he may be totally unfitted for it) for he cannot be deprived of it, without he does something to

install the factory laws and
of Eng.
