IV.—RECENT SCIENTIFIC INVENTIONS AND NEW DISCOVERIES.

Many years must pass before India will be able to contribute much on its own strength to such a class. At the present time contributions may be expected only from the various European establishments and organizations in India, such as the Engineering Colleges, the Public Works Department, the Railway and Telegraph Administrations. Notices should be addressed to all such bodies, in order to draw their attention to the opportunity which the next Exhibition offers.

GENERAL RULES AND REGULATIONS.

A.

Her Majesty's Commissioners for the Exhibition of 1851 announce that the second of the series of Annual International Exhibitions of Selected Works of Fine Art (including Music), Industrial Art, and Recent Scientific Inventions and Discoveries will be opened at South Kensington, London, on Wednesday, the 1st May 1872, and closed on Monday, the 30th September 1872.

*Proceedings of the Madras Government, Public Works Department,
5th March 1872.*

B.

These Exhibitions will take place in the permanent buildings erected for the purpose, adjoining the Royal Horticultural Gardens, and in the Royal Albert Hall.

Each Annual Exhibition will consist of three divisions—

DIVISION I.—FINE ARTS.

Do. II.—MANUFACTURES.

Do. III.—RECENT SCIENTIFIC INVENTIONS AND NEW DISCOVERIES.

Divisions I. and III. will form part of each Annual Exhibition. The classes of manufactures included in Division II. will vary from year to year.

C.

The productions of all nations will be admitted, subject to their approval by competent judges as being of sufficient excellence to be worthy of exhibition, and provided they have not been exhibited in the previous International Exhibition.

D.

The exhibition for 1872 will consist of the following classes. For each class a separate Committee of Selection will be appointed:—

DIVISION I.—FINE ARTS—

Fine Arts applied or not applied to works of utility executed since 1862—

CLASS I.—Painting of all kinds, in Oil, Water Colours, Distemper, Wax, Enamel, and on Glass, Porcelain, Mosaics, etc.

Do. 2.—Sculpture, Modelling, Carving and Chasing in Marble, Stone, Wood, Terra-Cotta, Metal, Ivory, Glass, Precious Stones, and any other materials.

Do. 3.—Engraving; Lithography; Photography, as a Fine Art, executed in the preceding twelve months.

Do. 4.—Architectural Designs and Drawings, Photographs of executed Buildings, Studies or Restorations of Existing Buildings and Models.

Do. 5.—Tapestries, Carpets, Embroideries, Shawls, Lace, etc., shown not as Manufactures, but for the Fine Art of their design in form or colour.

Do. 6.—Designs for all kinds of Decorative Manufactures.

Do. 7.—Reproductions, i. e., exact copies of Ancient or Mediæval Pictures painted before A. D. 1550. Reproductions of Mosaics and Enamels; copies in Plaster and Fictile Ivory. Electrotypes of Ancient Works of Art, etc.

DIVISION II.—MANUFACTURES—

Class 8.—Cotton and Cotton Fabrics.

Do. 9.—Jewellery, i. e., Articles worn as Personal Ornaments made of Precious Metals, Precious Stones, or their imitations, but not Goldsmiths' and Silversmiths' work, which will be exhibited in 1876, or Watches which will be exhibited in 1875.

Do. 10.—Musical Instruments of all kinds.

Do. 11.—Acoustic Apparatus and Experiments.

Do. 12.—Paper, Stationery, and Printing—

a.—Paper, Card and Mill-board.

b.—Stationery, Account Books, etc.

c.—Letterpress, Plate, and all other modes of Printing.

Raw Materials, Machinery and Processes used in the production of all the several classes of Manufactures mentioned above.

Detailed Rules and Lists of the separate Trades engaged in the production of Objects of Manufacture will be issued.

DIVISION III.—RECENT SCIENTIFIC INVENTIONS AND NEW DISCOVERIES OF ALL KINDS—

E.

All objects submitted for this Exhibition must have been produced since 1862.

F.

In the divisions of Manufactures and Recent Scientific Inventions and Discoveries producers can send only one specimen of each kind of object they produce, such objects being distinguished by novelty or excellence.

*Proceedings of the Madras Government, Public Works Department,
5th March 1872.*

G. The arrangement of the objects will be strictly according to classes, and not, as in former International Exhibitions, according to Nationalities.

H. Foreign Governments which desire to have space guaranteed for special and selected objects can obtain such a guarantee upon making application before the 1st October 1871 (see Special Rules).

I. Objects produced in the United Kingdom, as well as those objects produced in Foreign Countries, for which space has not been guaranteed, must be sent direct to the building for the inspection and approval of Judges appointed for the purpose. All objects must be delivered at the proper places in the building, which will be hereafter advertised, and into the care of the appointed officers, free of all charges for carriage, etc., unpacked, labelled, and ready for immediate exhibition.

J. No rent will be charged for space. Her Majesty's Commissioners will provide glass-cases, stands and fittings, steam and water-power, and general shafting, free of cost to the Exhibitors, if their requirements in these respects be notified to Her Majesty's Commissioners before the 1st of January 1872, and the Commissioners will carry out the arrangement of the objects by their own officers, except in regard to machinery, and to any special cases requiring skilled assistance, which must be provided by the Exhibitor.

K. Her Majesty's Commissioners will take the greatest possible care of all objects, but they will not hold themselves responsible for loss or damage of any kind.

L. Prices should be attached to all works of Art, and retail prices to all other objects intended for sale at the close of the Exhibition. Agents will be appointed to attend to the interests of Exhibitors.

M. Every object belonging to Divisions II. and III. must be accompanied by a label, stating the name and address of the Exhibitor, the special reasons, such as excellence, novelty, cheapness, etc., why it is offered for exhibition, and the retail price at which the public can obtain it.

N. The days appointed for receiving each class of objects are as follow:—

On Friday,	1st March,	MACHINERY AND RAW MATERIALS.
„ Saturday,	2nd „	RECENT SCIENTIFIC INVENTIONS AND DISCOVERIES.
„ Monday,	4th „	COTTON.

„ Wednesday,	27th „	SCULPTURE.
„ Tuesday,	9th April,	JEWELLERY, WHICH MUST BE BROUGHT IN SMALL CASES TO BE PREVIOUSLY OBTAINED FROM THE COMMISSIONERS.

To enable the arrangements to be carried into effect, strict punctuality will be required in the delivery of all objects, both Foreign and British. Objects presented after the days appointed for their reception cannot be admitted.

O. Objects not accepted for exhibition must be removed according to the notices which will be given. Objects exhibited cannot be removed until the close of the Exhibition.

*Proceedings of the Madras Government, Public Works Department,
5th March 1872.*

P. Reports of each class of objects will be prepared and printed immediately after the opening, and will be published as soon as possible after the 1st June 1872. Each Foreign country may adopt and publish the reports in its own language, and, if desired, the expression of its agreement or disagreement with the reports may be inserted in the English Reports.

Q. Prizes will not be awarded, but a certificate of his having obtained the distinction of admission to the exhibition will be given to each Exhibitor.

R. A catalogue will be published in the English language, but every Foreign country will be free to publish a catalogue in its own language if it thinks fit.

S. The present rules apply to the Exhibition of 1872, and are subject to revision in future years. All persons contributing to these Exhibitions shall be considered thereby to render themselves subject to such rules and regulations as Her Majesty's Commissioners may, from time to time, lay down for the conduct of these Exhibitions.

MUSICAL ARRANGEMENTS.

Her Majesty's Commissioners will appoint a Committee to select for performance in the Royal Albert Hall new compositions of merit which may have been published before the 1st March 1872.

SUPPLEMENTARY COURTS.

Foreign Governments may also erect, subject to the regulations laid down by Her Majesty's Commissioners, Supplementary buildings with the object of giving additional space to the Exhibitors selected for admission into the Annual International Exhibitions, but these buildings are only to be used for the display of objects, corresponding with those prescribed for each particular year.
