MADRAS RECORD OFFICE.

Government of Madras.

Public works DEPARTMENT.

G.O. No.	817	Press
		Mis.
Dated	30.3.18	18

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
23rd March 1872.*

No. 526. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 8th March 1872, No. 4,916 :—

I HAVE the honour to report to Government that I think if a good Supervisor were sent to take charge of the Chembrumbaukum Tank project it might now be very well put under the Range Officer of the Mount, who has no large work except the barracks in hand. The tank is in the middle of Mount Range, so that it would get continual inspection. At present there is a 1st class Assistant Engineer in charge who has done his work very well, though I rather complain this year of his not getting on so fast as he might, although he excuses himself by reporting the difficulty in getting labour owing to the magnificent season the ryots had this year.

2. The amount of his pay alone adds something like 10 per cent. to the cost of the work, which is high considering the nature of the work.

3. Should Government approve of my suggestion, I would recommend that Mr. Lowry should be given charge of the Madranticum Range of Chingleput, where his head-quarters would be at Chingleput, in place of Mr. Leggatt proceeding on leave.

No. 527. ORDER THEREON, 23rd March 1872, No. 819.

ESTABLISHMENT, No. 46.

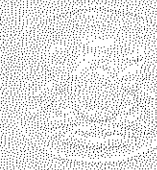

THE Government approve of the Assistant Engineer in charge of the Chembrumbaukum Tank project being transferred to Chingleput on Mr. Leggatt proceeding on leave, and of that project being placed in charge of a Supervisor under the orders of the Range Officer at the Mount. The Government hope to be shortly able to transfer a Supervisor for employment on the Chembrumbaukum project.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.
,, Controller of Public Works Accounts.
,, Acting Chief Engineer for Irrigation.

Superintendent's Office
No. 1916. H. Division,
March 8th 1892
From

Colonel C. D. Wilkins M.L.
Superintendent, Agents,
H. Division.
To
Colonel J. Carpenter M.L.
Secretary, Government M.L.

Sir - I have the honor to report to
Government that I think if a good
Inspector were sent to take charge
of the Chembrambakam Salt Project
it might now be very well put under
the Range Officer of the Mount who
has no large work except the barracks
in hand. The Salt is in the middle
of a Mount Range so that it could
get continual inspection. At present
there is a 1st Class Assistant Engineer
in charge who has done his work
very well though I rather complain
this year of his not getting on so far
as he might although he excused himself
by reporting the difficulty in getting
labor owing to the magnificent season
the ryots had this year.

2. The amount of his pay alone
adds something like 10 per cent to
the cost of the work which is high
considering the nature of the work.

3. Should Government approve
of my suggestion I would recom-
mend that Mr. Lacey should
be given charge of the Chaco-
tium Range of Shingleput
where his Head Quarters would
be at Shingleput in place of
Mr. Leggatt proceeding on leave.

I am the honor to be

Sir

Yours most obedient servant

Wm. J. M. Calhoun
Superintendent
