Proceedings of the Madras Government, Public Works Department,
26th March 1872.

No. 595. Read the following letter from the Acting Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Cuddalore, 22nd March 1872, No. 276 :—

I HAVE the honour to forward a telegram just received from the Executive Engineer, Bangalore, requesting that the amounts as per margin allotted for demolition of bakery at Bangalore and alterations to the store in fort at Bangalore for the purpose of converting it into a laboratory may be transferred to the School-house, European Infantry Barracks.

Rupees	1,970
,,	2,200
,,	4,170

2. No reason is assigned for the request, and I can therefore only conjecture that little or no expenditure can be made in this official year on the two first named works, while a considerable expenditure can conveniently be made in the last.

3. May I request that you will telegraph to Captain Wood the decision of Government.

No. 596. ORDER THEREON, 26th March 1872, No. 851.

MILITARY WORKS, No. 22.

THE Government sanction the proposals referred to in this letter, but require further explanation. The provision of laboratory accommodation in the fort at Bangalore is a work of urgency, and the Government are disappointed to find that, although a month has elapsed since a grant for the work was made, no steps have been taken to utilize it.

2. From the progress report submitted by the Superintending Engineer for January 1872, it is observed that the expenditure on the school-room for the European Infantry Barracks, up to the end of that month, was only Rupees 1,560, against an allotment of Rupees 10,000, and it is not apparent therefore why application is made for the grant for that work being supplemented. Full explanation is required.
