Misc.

Dated 17/11/18

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
26th March 1872.*

No. 603. Read the following endorsement of the Acting Chief Engineer for Irrigation, dated Fort St. George, 15th February 1872, No. 17 :—

From the Acting Superintending Engineer, 1st Division, to the Acting Chief Engineer for Irrigation, dated Dowlaishweram, 18th November 1871, No. 2,588.

In accordance with the instructions conveyed in paragraph 3 of G. O., No. 941, of the 30th March 1871, I have the honour to forward herewith a plan and statement of land which the Executive Engineer in charge No. 3 or Western Delta Range, Godavery District, considers it necessary to have handed over to this department.

2. I have personally inspected the place, and consider it most advisable that the land in question should be made over to us, and as in the accompanying copy of letter from the Collector of the District no objection is raised to the acquisition of the same, I request that you will be good enough to obtain the sanction of Government to the proposal.

No. 604. From the same Officer, dated Dowlaishweram, 22nd January 1872, No. 3,232.

I HAVE the honour to return herewith the enclosures received with your letter, No. 199, dated 24th November 1871, as requested.

2. I enclose copy of a letter received from the Executive Engineer in charge, No. 3 Range, Godavery, from which you will observe that the proprietors of the land alluded to are willing to give it up on payment of Rupees 208 or 20 years' kist. No claim is made for loss of crops.

3. As the present allotment under the head Minor New Works "Agricultural" is quite insufficient to meet the requirements of Range Officers, I am unable to provide the amount above referred to from this source.

FORWARDED to Government with the recommendation that the land in the village of Sidhantam, Godavery District, referred to by the Superintending Engineer, 1st Division, should be acquired by the Public Works Department.

(Signed) A. deC. SCOTT, Captain, R.E.,
For Acting Chief Engineer for Irrigation.

No. 605. ORDER THEREON, 26th March 1872, No. 855.

IRRIGATION, No. 29

THE Government approve of the acquisition of the land in the village of Sidhantam, Godavery District, which

Lieutenant-Colonel Fischer, in his letter above noted, reports that it is necessary to have handed over to the Public Works Department in connection with the conservancy of the river banks.

Proceedings of the Madras Government, Public Works Department,
26th March 1872.

2. The Collector will be requested to take the necessary steps to enable the Public Works Officers to enter into possession, by arranging for and paying the proper compensation to the holders of the land.

In conducting the negotiations he should act in concert with the Superintending Engineer, and should obtain the assent of that officer to the amount of the compensation before making the payment. The fact of the completion of the purchase and the delivery of the land, with the particulars of the amount paid, should be duly reported to Government by the Collector.

3. Under G. O., No. 941, of the 30th March 1871, it is probable that a considerable extent of land will have eventually to be obtained possession of by the Public Works Department. It will be convenient in many cases for the Collectors and Superintending Engineers respectively to depute subordinate officers to inspect the ground and initiate and carry out all the arrangements for its acquisition, as well as to determine the nature and amount of the compensation to be given. These deputies should act as a Committee, and their proceedings and report duly recorded should be examined and endorsed by the officers who appointed them before the transaction is completed.

The expenditure in the present case will be met from the savings reported by the Superintending Engineer of the 4th Division, under Minor New Works, Agricultural, Chingleput District, the specific allotment to be made will be determined on the receipt of the Collector's report; but the Superintending Engineer is authorized to make that officer the necessary advance from the funds at his disposal to enable the transaction to be completed.

To
Major H. S. Fisher, R.E.
Chief Engineer 1st Division

In returning the Plan and Statement
to which your letter of the 7th Instant No 267,
you have been so kind to state that I have
no objection to offer to the requisition of the land
prepared by the Boundary Engineer.
I presume that you will obtain
the sanction of Government through the Chief
Engineer for the requisition and that you will then
call upon me to take the necessary steps for
acquiring the land required for the river pro-
tection work. I further
presume to be provided by your Department
for payment of compensation to the owners.

Yours very truly
Signed M. E. Sullivan
