*Proceedings of the Madras Government, Public Works Department,
13th January 1872.*

No. 199. Read the following letter from the Superintending Engineer, 8th Division, to the Secretary to Government, Public Works Department, dated Madura, 19th December 1871, No. 3,599 :—

I HAVE the honour to report, for the information of Government, that I propose directing Supervisor Serjeant J. B. Sanderson, in charge of operations at Paumben, to proceed to Tuticorin in order to direct the work of removing rocks at the entrance of the inner harbour of Tuticorin, for which work a sum of Rupees 1,000 is granted in the current year's Provincial Budget.

2. As Serjeant Sanderson has had considerable experience in this sort of work, I have directed him, in anticipation of the sanction of Government, to proceed as early as practicable to Tuticorin, and I trust that my proceedings in this respect will meet with approval. I should mention that work can be done at Tuticorin in January, which is a month in advance of the working season of Paumben, and is therefore the most convenient period for Serjeant Sanderson's absence from Paumben.

3. Serjeant Sanderson will probably quit Paumben by boat during the first week of January next.
