Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
13th January 1872.*

No. 209. ~~211~~ Read the following Endorsement of the Acting Chief Engineer for Irrigation, dated Fort St. George, 15th December 1871, No. 211 :—

from the Superintending Engineer, 2nd Division, to the Acting Chief Engineer for Irrigation, dated Bezwarah, 7th December 1871, No. 123.

I HAVE the honour to report that, in consequence of heavy rain from the 22nd to 25th November, all the country south of Nellore has been flooded, and the irrvapully tank been in great risk.

2. Major Clay had considerable difficulty in reaching it as the road dams were submerged from 3 to 4 feet deep, but he attributes the prevention of breaches to the promptness and energy of Overseer T. Smith and Maistry Nagappa who, aided by the Revenue authorities and neighbouring villagers, succeeded in stopping all weak places.

3. The saturated earth having submerged country behind it appears to have pped, in some cases from one-half to two-thirds of its section, and in some cases only material procurable had to be carried through 4 feet depth of water and on a distance of 400 yards.

4. I shall submit estimates for these repairs, which should be classed "Extraordinary," under orders of Government of India No. 2,464, of 27th September 71, as soon as I receive them.

FORWARDED for the information of Government.

(Signed) R. F. OAKES, Captain, R.E.,
Acting Chief Engineer for Irrigation.

No 123

Superintending Engineer's Office
2nd Division Bangalore
7th December 1871.

From

Colonel F. J. Doherty R.E.
Superintending Engineer 2nd Division

To

Captain R. F. Oakes R.E.
Acting Chief Engineer
for Detachment

Sir,

I have the honor to report that in consequence of heavy rain from the 22nd to 25th November all the country south of Tallore has been flooded, and the turnapully tank been in great risk.

2. Major Clay had considerable difficulty in reaching it as the road dams were all submerged from 3 to 4' deep. but he attributes the prevention of breaches to the promptness and energy of Overseer J. Smith and Maistry Adappa who, aided by the Revenue Authorities and neighbouring villagers, succeeded in stopping all weak places.

3. The saturated earth having submerged country behind it, appears to have slipped in some cases

from $\frac{1}{2}$ to $\frac{3}{4}$ of its section. and in some cases the only material procurable had to be carried through 1 ft depth of water and from a distance of 400 yards.

4. I shall submit estimates for these repairs which should be classed "Extraordinary" under orders Government of India No 2464 of 27 September 1871 as soon as I receive them.

I have the honor to be
Sir,

Your most Obedient Servant

J. H. Colville
Superintendent Engineer
