*Proceedings of the Madras Government, Public Works Department,
24th January 1872.*

No. 425. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Masulipatam, 30th December 1871, No. 129 :—

IN reply to G. O., No. 2,379, [19th September 1871, I have the honour to report that the works executed for the Murukondapad tank and for the Karlapoliem supply channel were merely ring bunds which the ryots are, under Clause VIII, paragraph 25, Chapter XI, Public Works Code, bound to construct as customary labour.

2. The two works are valued at Rupees 40-8-0 and Rupees 69-6-0 respectively.

3. No application was made to the Range Officer for payment I conclude, because the ryots were well aware that they were not entitled to it, nor did either the Sub-Collector or Collector address any member of the department; the first I heard of the subject was from seeing the order in question; the breaches occurred in September and October 1870.

No. 426. ORDER THEREON, 24th January 1872, No. 217.

IRRIGATION, No. 38.

COMMUNICATED, through the Revenue Department, to the Board of Revenue with reference to their Proceedings, dated 29th August 1871, No. 3,718. The Government do not, as at present advised, consider the ryots' claim to re-imbursement valid.
