margin from the grant of Rupees 25,000 for the project, there remains now to its credit Rupees 11,700.

2. The revised plans and estimates for this project being now before Government, they know very well whether there is any likelihood of the work being re-commenced this year. However, in case of the estimates being sanctioned and orders received by the 1st February to proceed with the work, the Executive Engineer anticipates only an expenditure of Rupees 2,000 a month or Rupees 4,000 to the end of this official year; if otherwise, the whole of the said Rupees 11,700 is available for other services.

3. I have instructed the Executive Engineer to proceed at once with the dismantling of the upper story, etc., of the Bakery, as directed in paragraph 1 of the G. O. under reply, and will submit, for the orders of Government, the estimate of the amount required for the same as soon as it is received from that officer.
