DEPARTMENT.

G.O. No. Press Mis.

Dated 18 .

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 10th February 1872.

No. 195. Read the following endorsement of the Acting Chief Engineer for Irrigation, dated Fort St. George, 1st February 1872, No. 12 :—

From the Superintending Engineer, 4th Division, to the Chief Engineer for Irrigation, dated Madras, 24th January 1872, No. 4,257.

With reference to the Orders of Government, No. 2,254, dated 19th September 1870, and No. 784, dated 16th March 1871, I have the honour to submit, for the sanction of Government, a revised estimate amounting to Rupees 11,650, together with plans for improving the Polur supply channel and constructing a sluice and regulating dam at the head, and to state that the several suggestions made by Major Mullins in pencil on the documents have been attended to.

1 Plan of Masonry Works.
1 Do. of Section of Channel.
1 Survey Plan.
1 Estimate (Detail and Abstract).
1 Letter from Mr. Bevan, No. 542, dated 15th January 1872.

2. The Range Officer has not sent in the complete revenue statements called for by Government, but he has been instructed to submit them at once. On receipt in this office they will be transmitted to you.

3. The work in question has been commenced by Mr. Bevan under a misapprehension, arising very apparently from a careless reading of the orders of Government on the subject, that the work was sanctioned and an expenditure of Rupees 1,588 incurred up to date. The work, however, is important, and I have therefore not stopped it pending sanction of the revised estimate, upon which I solicit that early orders may be passed.

Submitted to Government with the recommendation that the plan and estimate be approved of.

(Signed) A. deC. SCOTT, Captain, R.E.,
for *Acting Chief Engineer for Irrigation.*

No. 196. Order thereon, 10th February 1872, No. 405.

IRRIGATION, No. 15.

The plan and estimate are approved of and the work should be proceeded with as rapidly as practicable.
