3. Provision has been made in the outgoing Provincial Budget for the works marginally noted, and the additional grant required for the completion of the additions and alterations to the Mint Buildings being under 500 Rupees, no allotment is necessary.

Sub-Magistrate's Cutcherry at Goodaloor. Wynaad.
Alterations to the Collector's Cutcherry at Homes' Gardens Chingleput District.

4. The Government regret to observe that the expenditure on works included in the Provincial Budget contrasts unfavourably with the grants. The following sums are still available for re-appropriation. The Government will be prepared to consider any further applications which may be made for additional funds before the close of the year under "Provincial:"—

5. The amounts remaining unutilized from the grants for Imperial works are given below, and the short expenditure under this head is due chiefly to the plans and estimates for the Madras Telegraph Office not having yet been sanctioned, and those for the Telegraph Office at Cocanada having been passed too late in the year to admit of the full allotments being expended.

Sir,

With reference to G. O. N^o. 2863 dated 10th November 1871, I have the honor to report that a balance of Rupees 34,000 out of the current year's allotment of Rupees One L. for Agricultural repairs in the North Arcot District is likely to be left unspent in the current official year. I beg therefore to recommend that a sum of Rupees 6,000 may be transferred to the Chingleput District where it is required to meet certain demands under the head Agricultural repairs. The remaining sum of Rupees 28,000 is now surrendered to Government for transfer to other Divisions.

R^s. 34,000
" 6,000
R^s. 28,000

The cause of such a small expenditure under the head Agricultural repairs in North Arcot District in this official year is owing to the plentiful supply of water in both seasons, rendering it impossible to repair the Rough Stone penchments of

of the Tanks and the Sluices. The first
freshes commenced in July, and the tanks
have had constant supplies up to December,
so that they are now quite full.

but it is hoped that every
effort will be made to work
up as far as possible to the
extent of the available allot-
ments. The Government will
be prepared to consider any
further applications which
may be made for addition-
al funds before the close
of the year under "Provin-
cial."

The Government regret
to observe that the expenditure
on works included in the
Provincial Budget contracts
unfavourably with the grants.
The following sums are still
available for reappropriation,

Provision has been made
in the outgoing Provincial
Budget for the works marginally noted.

The amounts remaining unutilized from the grants for Imperial works are given below, and the short expenditure under this head is due chiefly to the plans and estimates for the Madras Telegraph Office.

Office not having been sanctioned, and those for the Telegraph Office at Coimbatore having been passed too late in the year to admit of the full allotment being expended.
