*Proceedings of the Madras Government, Public Works Department,
4th March 1872.*

No. 70. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Cochin, 7th February 1872, No. 232 :—

I HAVE the honour to report, for the information of Government, that when inspecting the Military buildings at Mangalore, the Range Officer brought to my notice the very dilapidated condition of the roof of the Military hospital at that station, one wing of which I found to be in such an unsafe condition that I directed the Range Officer immediately to request the Officer Commanding the station to have this portion of the building vacated, and as soon as it is handed over to him to remove the roof at once and renew it, submitting an estimate for re-roofing the whole building which is absolutely necessary.

2. There being no other building of any description available for the reception of the sick, and it being also essential that the whole roof should be completed before the monsoon, I request Government will sanction my having directed the work to be taken in hand on emergency, and supply funds to the extent of Rupees 1,000, which I trust Government will place at my disposal at an early date in anticipation of the receipt of the estimate for the work, which I roughly calculate will amount to about Rupees 3,500 or 4,000. As the whole roof of the building must be removed and renewed, the work, I think, should be treated as a "new work" and not a "repair," and I have so included it in the statement of additional demands this day forwarded to your address.

No. 71.

ORDER THEREON, 4th March 1872, No. 593.

MILITARY WORKS, No. 3.

THE proceeding reported in this letter is approved ; but in submitting the estimate for renewing the roof of the Military hospital at Mangalore a full report on the causes of deterioration should be furnished. Funds have been separately provided.
