| G.O. No. 124 | Press |
| 246-247      | Mis.  |
| Dated 14-1-  | 1873  |

**Not to be folded or roughly handled**

No. 246. Read the following Endorsement of the Chief Engineer for Irrigation dated Fort St. George, 6th December 1872, No. 65:—  
From the Acting Manager of the Madras Irrigation and Canal Company, to the Acting Chief Engineer for Irrigation, dated Madras, 26th July 1872, No. 183.

I HAVE the honour to hand you, with reference to your letter No. 31 of 14th June 1872, copy of letter which I have received from the Acting Chief Engineer.

2. That Officer's further report shall be communicated to you as soon as it reaches me.

From the Acting Chief Engineer, to the Acting Manager of the Madras Irrigation and Canal Company, dated Kurnool, 22nd July 1872, No. 434.

YOUR No. 302 of 10th instant.

I have the honour to inform you that there is still a very considerable quantity of land applied for but not yet made over to the Company formerly.

In the absence of my office records, I am unable to give the exact average, but on my return to Kurnool in about ten days I hope to supply you with full information.

After all of the land which has been applied for by the Company's Engineers is made over to the Company, we will probably not require more than 50 additional acres each year for extension of the present channels, but there is a very great deal of work in arrears at present.

From the Acting Manager of the Madras Irrigation and Canal Company, to the Acting Chief Engineer for Irrigation and Joint Secretary to Government, dated Madras, 7th August 1872, No. 196.

IN continuation of my letter No. 183 of 26th ultimo, I have the honour to hand you copy of a further report from our Acting Chief Engineer with reference to the work remaining to be done in connection with the transfer of land to the Company.

From the Acting Chief Engineer, to the Acting Manager of the Madras Irrigation and Canal Company, dated Kurnool, 3rd August 1872, No. 452.

IN continuation of my letter No. 434 of 22nd ultimo, I have the honour to enclose a statement showing the number of land plans yet with the Deputy Collector of Kurnool District.

From this statement it will be seen that fifty-six sheets of plan describing 1,215 acres and 26 cents of land are still with the Deputy Collector for examination and measurement.

To measure and examine 1,215 acres of land in one square block would not occupy a Surveyor long, but when the land is in detached and narrow strips, scattered over a great area of country, the work becomes much more laborious. I am not aware of the state of forwardness of the work now in the Deputy Collector's office, but I should think the examination of 1,215 acres of such land plans as ours would occupy an ordinary Surveyor about three and a half months.

At present there are no arrears in this office in applications for land, so that the estimate of our future requirements given in my letter No. 434 of 22nd July 1872, may be accepted as applying from this date. That is to say the Deputy Collector has still to hand over 1,215 acres of land already applied for by us, and will probably have to hand over about 50 acres of land not yet applied for each year for some years to come.

Proceedings of the Madras Government, Public Works Department,  
14th January 1873.

List of Land Plans Numbers not yet returned by Deputy Collector at Nundial.

*Proceedings of the Madras Government, Public Works Department,  
14th January 1873.*

The statement attached to the Acting Chief Engineer's letter No. 452 of the 3rd August last, shows that some of these plans had been for a very long time in the hands of the Revenue Department.

3. Should the sanction given in G. O., Revenue Department, No. 866 of the 4th June 1872, for the retention of the special establishment engaged in making over land to the Company not suffice to clear off the arrears, it will probably be convenient to allow the Deputy Collector a little more time for this purpose; but, for the moderate amount of work—the transfer of 50 acres a year—of this kind to be done thereafter, it seems clear that the ordinary Revenue taluq establishments will suffice. Lands for distribution channels are usually long narrow strips, and, with the information furnished by the Company, the examination of these can hardly be otherwise than a very simple matter.

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,  
Chief Engineer for Irrigation.

No. 247.

ORDER THEREON, 14th January 1873, No. 124.

IRRIGATION, No. 24.

The Revenue Department will be informed, with reference to G. O., Revenue Department, No. 866, dated 4th June 1872, that, while it may be advisable to retain a special establishment for the transfer of land to the Madras Irrigation and Canal Company so long as may be really necessary for disposing of the land plans already submitted by the Company's Officers, it is considered in this department that the future transactions of this kind, which are estimated to amount to about 50 acres a year, will be so trifling in extent that the ordinary taluq establishment will be quite sufficient for their management.

(True Extract.)

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,  
Joint Secretary to Government.

To the Revenue Department.  
„ Chief Engineer for Irrigation.

Chief Engineer's Office  
Kurnool 22<sup>nd</sup> July 1872

70434

To The Acting Manager.  
Madras.

Sir,

Your No. 302 of 10 instant.

I have the honor to inform you that there is still a very considerable quantity of land applied for but not yet made over to the Company formally.

In the absence of my Office records I am unable to give the exact acreage, but on my return to Kurnool in about 10 days I hope to supply you with full information.

After all of the land which has been applied for by the Company's Engineers is made over to the Company we will probably not require more than 50 additional acres each year for extension of the present channels, but there is a very great deal of work in arrears at present.

I have &c.

1892

I have no objection to the  
 use of the land for the  
 purpose of measuring & con-  
 sidering the value of land required  
 by the irrigation of canal company  
 may be dispensed with. To admit  
 of any forming an opinion on  
 this subject will go to good enough  
 to inform us whether all the  
 works for compensation in con-  
 nection with the main canal have  
 been satisfied. For how many  
 branch canals ~~plans~~ have been  
 submitted by the Company, of which  
 are still being disposed of  
 by the Revenue Dept. & for how  
 many more channels ~~plans~~  
 have been submitted. When the  
 list of these is taken up to be  
 considered. I should be glad if you  
 could state approximately  
 what area of land is still likely

Madras Irrigation & Canals  
 No. 232 Chief Engineer's Office  
 7<sup>th</sup> June 1872  
 The Acting Manager  
 Madras

Sir  
 In continuation of my No. 232 of 22<sup>nd</sup> ultimo  
 I have the honor to enclose a statement showing  
 the number of land plans yet with the Deputy Collector  
 of Tirumal District.

From this statement it will be seen that 56 sheets  
 of plan describing 1215 acres and 26 cents of land  
 are still with the Deputy Collector for examination  
 and measurement.

To measure and examine 1215 acres of land  
 in one square block would not occupy a surveyor  
 long, but when the land is in detached and narrow  
 strips, scattered over a great area of country, the  
 work becomes much more laborious. I am not  
 aware of the state of forwardness of the work now  
 in the Deputy Collector's Office, but I should think  
 the examination of 1215 acres of such land  
 plans as ours, would occupy an ordinary  
 surveyor about 3 1/2 months.

At present there are no areas in this  
 Office in applications for land so that the estimate  
 of our future requirements given in my letter  
 No.

No. 234 of 22<sup>nd</sup> July 1870 may be accepted as applying from this date. That is to say the Deputy Collector has still to hand over 20 acres of land already applied for by us, and will probably have to hand over about 50 acres of land not yet applied for each year for some years to come.

Have the honor to be

Yours most obedt servant

Sydney J. Canning

Acting Chief Engineer

List of Land Plans Nos are not yet returned by Deputy Collector at Muddal

From

The Acting Manager

To

The Acting Chief Engineer  
 for Irrigation and  
 Joint Secretary to Government

Sir,

In continuation of my letter No 183 of 26<sup>th</sup> ultimo, I have the honor to hand you copy of a further Report from the Acting Chief Engineer with reference to the work remaining to be done in connection with the transfer of land to the Company.

I have the honor to be  
 Sir

Your most ob<sup>l</sup> servant

Proceedings of the Madras Government  
Read the following

From The Chief Engineer } H.E. No 657/6<sup>th</sup> Decr/22  
for Irrigation }

The Revenue Department will be informed, with reference to G. O. R.D. No 866, dated 4<sup>th</sup> June 1872, that, while it may be advisable to retain a special establishment for the transfer of land to the Madras Irrigation Canal Company, as long as may be really necessary for disposing of the land plans already submitted by

in estimation of the price  
No. 103 paid \$22.50 Nov 23 1874  
for the above from the  
Selling Messrs. Wm. & J. B. B. B.  
the same for 1875 to  
the Company.

the Company's Officers, it  
is considered in this De-  
partment that the future  
transactions of this kind,  
which are estimated to  
amount to about 50 acres  
a year, will be so trifling  
in extent that the ordinary  
Saling establishment will  
be quite sufficient for  
their management.
