*Proceedings of the Madras Government, Public Works Department,
2nd May 1873.*

No. 28. Read the following endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 8th April 1873, No. 2 :—

From R. K. WILLIAMS, Esq., Officiating Government Examiner, Irrigation and Canal Company's Accounts, to Lieutenant-Colonel J. MULLINS, R. E., Chief Engineer for Irrigation, dated Madras, 7th April 1873, No. 2.

With reference to your No. 139, dated 21st March 1873, to the address of the Acting Manager, copy of which was received with your endorsement No. 209 of the 21st idem, "authorizing me as a special case to pass Mr. Dodson's salary bills in accordance with the terms of his appointment by the Board of Directors, so

* Rupees 1,320 per mensem.
" 15,840 per annum.

long as the total sanction* for the Engineering Conservancy staff as given in G. O., of the 18th March 1871, is not

exceeded," I have the honour to report that the scale sanctioned by Government for the Engineering Conservancy staff, lower section, provides only Rupees 1,320, whereas Rupees 1,675-12-10 is charged in the salary bills for January 1873 and Rupees 1,650-11-4 for February, showing an excess over sanction of Rupees 355-12-10 and 330-11-4 respectively, which there are no savings in previous to cover. I therefore solicit instructions on this point.

2. In stating that the arrangements in question do not involve any expenditure in excess of the aggregate sanction for a maintenance staff, the Acting Manager apparently means the total sanction of Rupees 6,066 per mensem accorded in Government Order No. 817 of the 18th March 1871, which is sufficient to meet the additional charge.

SUBMITTED to Government with the correspondence which has given rise to the reference from the Examiner of Accounts.

2. The adjustment of the salary bills of Mr. Dodson was sanctioned by this office upon the supposition that the amount available for the Conservancy staff of the lower sections would not be exceeded; but, as it appears that this is not the case, it is recommended that, under the circumstances of Mr. Dodson's appointment by the Board of Directors, the excess expenditure incurred may be passed.

3. It will be observed that the total charge on account of the conservancy establishment of the whole canal will not be exceeded, but as the sanctions for the upper and lower sections are distinct, the saving on the one is not directly available as a set off to excess on the other, though it may fairly be taken into account.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.
