*Proceedings of the Madras Government, Public Works Department,
29th May 1873.*

No. 414. Read the following letter from Lieutenant Colonel J. F. FISCHER, R. E., District Engineer, Godavery, to Lieutenant-Colonel J. MULLINS, R. E., Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Dowlaishweram, 30th April 1873, No. 348:—

WITH reference to G. O., No. 422, dated 7th February 1873, I have the honour to report that the amount required to be appropriated in 1873-74 for the purpose of preparing designs and estimates for works to dispose of the drainage crossing the Ellore Canal is Rupees 1,092. The original amount sanctioned for this purpose in the Government Order above referred to was Rupees 1,200, of which Rupees 395 were spent in 1872-73. The balance, Rupees 805, will not be sufficient to complete the designs, and I therefore apply for a little more than the actual balance.

No. 415. ORDER THEREON, 29th May 1873, No. 1,448.

ESTABLISHMENT, No. 55.

THE appropriation from the provision for temporary establishments in 1873-74 will, as applied for by the

District Engineer, Godavery, with reference to G. O., 7th February 1873, No. 422, be Rupees 1,092, but it may be remarked that it would have been more satisfactory had the District Engineer furnished details of this sum, and explained why his former estimate had proved insufficient.
