From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Lieutenant-Colonel J. GODDARD, R. E., District Engineer, Presidency, dated Fort St. George, 26th May 1873, No. 669.

As my office is already very much crowded, many of the men having to work in one of the verandahs, and as the establishment is about to be increased, it is necessary that some arrangement should be made to provide the additional accommodation that will be required, and therefore I write to beg that you will be good enough, in anticipation of the approval of Government, to prepare an estimate for building an upper-room over the store or godown portion of the block (north) occupied by my office.

2. If you could make it convenient to inspect the block, I should be happy to show you the portion I refer to, and then one of your subordinates could take measurements, etc., necessary for the preparation of an estimate, which of course would have to be sanctioned by Government before commencement of the work.
