P... DEPARTMENT

G.O. No.	152	Press
B.P. No.		Mis.
Dated	18. 6. 18.	

Not to be folded or roughly handled

No. 237. Read the following letter from Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Coimbatore, 23rd May 1873, No. 16:—

With reference to paragraph 1 of G. O. No. 1,079 of the 8th April 1873, I have the honour to submit the usual tabular statement showing the proposed alteration in the establishments of control in connection with the Madras Irrigation and Canal Company. The modification involves, it will be seen, an increase of Rupees 80 per month, the difference consisting of a deputation allowance of Rupees 50, which it is recommended should be given to the Head Clerk of my office, in consideration of the additional work and responsibility which have devolved upon him since the amalgamation of the offices of the Consulting Engineer for the Irrigation and Canal Company and of the Chief Engineer for Irrigation. The Manager of the former office received Rupees 225; the Head Clerk of this office has a salary of Rupees 150, and the deputation allowance will raise his pay to Rupees 200 a month. I beg to recommend that this deputation allowance should be sanctioned from the 1st April 1873.

2. In the letter submitting the Budget Estimates, I recommended an increase of Rupees 20 a month to the pay of the Accountant employed in the examination of the Company's accounts under the orders of the Government Examiner of Accounts; this man has been for twenty-seven years in Government employ, and for four years in his present appointment, in which he has given satisfaction to the several officers under whom he has served. Since, however, the Budget Estimates were framed, it has been decided to remove the head office of the Company to Kurnool, and this Accountant will have to remove to that station, which is in an expensive, and, to Natives of the littoral districts, a very unpopular and unhealthy part of the country, while, moreover, as he will no longer be under the immediate supervision of the Government Examiner, additional responsibility will be thrown upon him, and I think, therefore, it will be only fair and at the same time wise to take these circumstances into consideration. I have consequently proposed an increase of Rupees 30 a month for the Accountant instead of Rupees 20, and I would recommend that the latter should be passed to him from the 1st April, and the former from the date on which he may leave Madras for Kurnool. I would also repeat my recommendation that, if the Accountant continues to do his work well, he should be allowed a further increase of Rupees 10 a month in every second year until a maximum of, say, Rupees 150 is attained. Should the post occupied by Manajee Row at any time become vacant, the new incumbent may properly receive Rupees 100 on first appointment, and an increase of Rupees 10 a month every second year thereafter up to the maximum already named.

From

The Chief Eng^r for Irrigation

To

The Secretary to Govt P.W. &

Sir,

With reference to para 1 of
Enclosure 1. G.O. N^o 1079 of the 27th April 1873,
I have the honour to submit the
usual tabular statement showing
the proposed alteration in the
establishments of control in con-
nection with the Madras Irriga-
tion & Canal Company. The modi-
fication involves, it will be seen,
an increase of Rupees 20 per month
the difference consisting of a de-
putation allowance of Rupees 50
which it is recommended should be
given to the Head Clerk of my office,
in consideration of the additional
work and responsibility which have
devolved upon him since the amal-
gamation of the offices of the Con-
sulting Engineer for the Irrigation
& Canal Company & the Chief Engineer
for Irrigation. The Manager of the for-
mer office received Rupees 225: the head
clerk of this office has a salary of Rupees

150, and the deputation allowance will raise his pay to Rupees 200 a month. I beg to recommend that this deputation allowance should be sanctioned from the 1st April 1873

2 In the letter submitting the Budget estimates, I recommended an increase of Rupees 20 a month to the pay of the Accountant employed in the examination of the Company's accounts under the orders of the Government Examiners of accounts; this man has been for 27 years in Government employ, and for 4 years in his present appointment, in which he has given satisfaction to the several officers under whom he has served. Since however the Budget estimates were framed, it has been decided to remove the Head Office of the Company to Kurnool, and this Accountant will have to remove to that station, which is an expensive and, to natives of the littoral Districts, a very unpopular & unhealthy part of the country, while moreover, as he will no longer be under the immediate supervision of the Government Examiners, additional responsibility will be thrown upon him, and I think therefore it will be only fair and at the same time.

time wise to take these circumstances into consideration. I have consequently proposed an increase of Rupees 30 a month for the Accountant instead of Rupees 20, and I would recommend that the latter should be paid to him from the 1st April, and the forwar from the date on which he may leave Madras for Kurnool. I would also repeat my recommendation that, if the Accountant continues to do his work well, he should be allowed a further increase of Rupees 10 a month in every second year until a maximum of, say, Rupees 150 is attained. Should the post occupied by him at any time become vacant, the new incumbent may properly receive Rupees 100 on first appointment, & an increase of Rupees 10 a month every second year thereafter up to the maximum already named.

I have the honour to be
Sir
Your most obedient servant.

Wm. Mullins St Col M.B.
Chief Surg. for Brigade
