MEMORANDUM.

THE approaching completion of the Madras Water Works Project renders the

One Statement.

employment of a Conservancy Establish-
ment upon the Cholaveram and Red Hills

Reservoirs necessary, in addition to that already sanctioned for the aicut on the
Cortiliar whence these tanks receive their supply, and the Chembrumbaukum
Reservoir is similarly circumstanced. Opportunity has therefore been taken, in
considering what establishments were necessary, to re-arrange those in existence,
so as to provide for the requirements of the several groups of irrigation. A tabular
Statement in the usual form is submitted, showing the present and proposed scales
of Conservancy Establishment for the whole of the Irrigation Works of the Chingle-
put District requiring such management; the revised scale has been prepared by
the District Engineer after full discussion with the undersigned, and sanction for
its introduction as early as possible is recommended.

2. It would have been more proper had special provision been made in the
Budget for the increase of charge shown; but, owing to the many changes that
were at that time imminent in the arrangements of the department, the subject
could not then be taken up. The extra expense can probably be met from savings
under Establishment generally.

Memorandum

The approaching comple-
tion of the Madras Water Works
project, renders the employment
of a conservancy establishment
upon the Cholavaram & Red
Hills reservoirs necessary, in addi-
tion to that already sanctioned
for the aicut on the Cortihai
whence these tanks receive their
supply, and the Chembrambur-
Kum reservoir is similarly cir-
cumstanced. Opportunity has there-
fore been taken, in considering
what establishments were necessary
to rearrange those in existence,
so as to provide for the require-
ments of the several groups
of irrigation. A Tabular statement
in the usual form is submitted,
showing the present & proposed
scales of conservancy establish-
ment for the whole of the
irrigation works of the Chingle-
put District requiring such
management; the revised scale
has.
