*Proceedings of the Madras Government, Public Works Department,  
24th June 1873.*

No. 363. Read the following endorsement of the Inspecting Engineer for Civil and Military Buildings, dated Chepauk, 3rd June 1873, No. 578:—  
From A. C. LAWFORD, Esq., Officiating District Engineer, South Canara, to Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, dated Mangalore, 26th April 1873, No. 10.

In his letter printed with G. O., No. 828, of 20th March 1871, the late Superintending Engineer of the 7th Division reported that timber rafters and reapers should be used instead of bamboos to all such Subsidiary Jail buildings as were not then completed, which the Government approved.

2. The Pootoor Range Officer having reported that the bamboo roofs of the already constructed Sub-jail building at Hossdroog and Hospital shed at Cassergode had commenced to decay from the dampness of the tiles, and that the roofs should be replaced, the Superintending Engineer called for estimates for renewing the roofs in question with timber rafters. I have therefore the honour to forward the two accompanying estimates of Rupees 700 and Rupees 280 respectively, and request you will be so good as to obtain early sanction, the works having been entered in my List of Incomplete Works this day submitted to Government.

2 Estimates.  
2 Specifications.

THE two estimates for the under-mentioned works, received with the above letter, are submitted to Government for sanction, viz.:—

|                                                                                                                                | RS.       |
|--------------------------------------------------------------------------------------------------------------------------------|-----------|
| 1. For roofing with jungle-wood rafters, etc., the Hospital-shed attached to the Sub-jail at Cassergode, South Canara District | 280       |
| 2. Do. do. Subsidiary Jail at Hossdroog, do.                                                                                   | 700       |
|                                                                                                                                | <hr/> 980 |
