374-375		
Dated	25 . 6 .	1873 .

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
25th June 1873.*

No. 374. Read the following letter from T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 29th May 1873, No. 789 :—

I HAVE the honour to submit, for the orders of Government, the accompanying Statement showing the temporary establishments proposed to be employed by District Engineers for the survey of projects other than those classed as Extraordinary during the current official year.

2. The total of the amounts applied for by the District Engineers is Rupees 18,557, or Rupees 4,069 in excess of the sums sanctioned for similar establishments in 1872-73, as will be seen from the following Statement.—

Districts.	Survey duties.	
	1872-73.	1873-74.

Statement of Temporary Survey Establishments required for the year 1873-74.---(Concluded.)

*Proceedings of the Madras Government, Public Works Department,
25th June 1873.*

District.	Particulars of Establishments.	Cost per Menscm.	Cost per Annum.	Explanation of the necessity of Establishment.	Remarks.
Chingleput ...	2 Surveyors 12 Lascars	Rs. 120 72	Rs. 1,920	For ten months to procure information as to the best line for the drainage and irrigation under the Cholavaram and Red Hill tanks, and for the levels of the Cortelliar floods required to arrange for discharge of drainage across the supply-channel of those tanks, and afterwards to examine systematically the country between the Cortelliar and Cooum rivers. An application has been made to the Chief Engineer for Irrigation for this establishment. For four months for the surveying of works dependent on the Palar anicut on the south bank of that river with a view to their completion and improvement.	Application has already been made through the Chief Engineer for Irrigation for sanction to the employment of these establishments.
North Arcot ...	1 Surveyor 6 Lascars	60 36	384	For three months for the survey and levels of the tanks and channels in the neighbourhood of the town of Vellore with a view to the restoration of the former.	Do. do. do.
South Arcot ...	1 Draughtsman and Estimator	50	200	For four months for completing the drawings and estimates, etc., of the Pallagacherry Project. For one year for investigation of certain projects in the Salem Range.	This Establishment is necessarily required.
Salem ...	1 Overseer 1 Draughtsman 6 Lascars	100 50 42	2,304	For twelve months for surveying river margin and for taking up lands along them under G. O., No. 941, dated 30th March 1871.	
Tanjore ...	1 Surveyor 6 Lascars	50 36	1,032		

*Proceedings of the Madras Government, Public Works Department,
25th June 1873.*

Trichinopoly ...	1 Surveyor 6 Lascars	50 36	516 1,548	For six months for carrying out surveys in connection with petty irrigation projects.	Vide G. O., Nos. 1,279 and 1,618, dated 14th May and 4th July 1872, respectively.
	1 Surveyor 6 Chainmen	50 36	516	For six months for surveying river margins and plotting the same.	Vide Irrigation Chief Engineer's Circular. No. 163, dated 13th March 1873.
	1 Surveyor 3 Chainmen	50 18	204	For three months for laying down bench-marks on irrigation masonry works reduced to mean sea datum.	
Coimbatore ...	4 Lascars	24	720	For twelve months to assist Overseer Mr. Arbuthnot in surveying a new Calingaroven channel.	
	4 Lascars including 1 Boatman boat-hire.	24 10	102	For three months for surveying the canal from Ponany to Chetweye, Cochin, and West Coast Canal Range—vide G. O., No. 168, dated 18th January 1873.	
Malabar ...	272 Bench-mark stones for 17 miles from Ponany to Chowghat, including fixing, etc., at 10 Annas each.		170

(Signed) T. MOSS,
Offy. Controller of Public Works Accounts.

PORT ST. GEORGE,
29th May 1873.

*Proceedings of the Madras Government, Public Works Department,
25th June 1873.*

No. 375.

ORDER THEREON, 25th June 1873, No. 1,652.

ESTABLISHMENT, No. 35.

WITH his letter above recorded the Controller of Public Works Accounts submits a Statement showing the Survey Establishments, other than Extraordinary, proposed to be employed in 1873-74.

2. The Survey Establishments proposed for the Godavery are sanctioned, with the exception of that for taking levels of the channels connected with the Byanicalingulah, for which, if required, fresh application should be made by the District Engineer, accompanied by a report of the work done on previous sanction.

3. The item for the Kistna is sanctioned.

4. The Government consider that in Nellore and many other districts the permanent establishments can be more usefully employed in ascertaining and providing for the requirements of existing works than in investigating new projects, and the Survey Establishments asked for for the latter purpose cannot therefore be sanctioned. For the investigations needed to allow of the regulation of the discharge of the Vencatagherry river, and for sundry surveys connected with existing irrigation works, the Surveyor and Lascars forming the second item for this district may be allowed, but there appears to be no sufficient reason for giving the Surveyor more than 60, or the Lascars more than 6 Rupees, these being the rates prevailing in contiguous districts. The establishment for the extension of the Eastern Coast Canal is sanctioned to the extent of Rupees 100 a month. The District Engineer cannot look after a larger establishment, and as every part of the work to be done by the Surveyor must be laid down in detail by the District Engineer, there is no need to give more than the ordinary rate of salary.

5. The establishment for Kurnool is reduced to that sanctioned in G. O., Rupees 135 per mensem for six months. No. 1,585 dated 17th June 1873, leaving extended sanction for future consideration.

6. Pending the receipt of a special application, supported by a detailed report of the work done by the Surveyor, who, it is understood, has for a long time been employed on the Madras Water Works Project, as also of the nature and extent of the work to be done between the Cooum and Cortelliar rivers, sanction for any Establishment of this kind for Chingleput is postponed.

7. The first item of Survey Establishment for North Arcot is sanctioned, but it is to be entertained only from such date as the detailed instructions which must be given to the Surveyor may be ready. The work, provided for by the second item for this district, having been much reduced by the resolution not to restore the breached tanks above Vellore, the investigations should be completed at an early date.

8. The Government have no information before them regarding the Pullagacherry Project, and the Draughtsman and Estimator asked for cannot therefore be sanctioned.

9. Before any Survey Establishment, to be employed upon the investigation of new projects in Salem, can be sanctioned, the projects must be enumerated, and *prima facie* evidence adduced of their being desirable; and unless any of these projects are of the nature of improvements to existing works, or are required for the preservation of existing interests, the Government consider that the atten-

*Proceedings of the Madras Government, Public Works Department,
25th June 1873.*

tion of the District Engineer and of his Assistants should be given to the efficient management of works already completed, and to the carrying out of those already sanctioned and commenced.

10. The establishment for the survey of river margins in Tanjore is sanctioned; that applied for in connection with petty irrigation projects may be allowed, on the understanding that these are of the nature of improvements to existing works, but investigations for entirely new projects should not at present be undertaken, there being more important and necessary work for the District Engineer and his staff to do.

11. The two establishments asked for for Trichinopoly are sanctioned.

12. The survey of a new Calingaroyen channel in Coimbatore should be postponed until it can be carried out under proper supervision; and therefore, unless the District Engineer has some special object in view, in which case a small establishment will be allowed on renewed application, no work of this kind should at present be undertaken.

13. The establishment required in Malabar is sanctioned.

14. Subjoined is a summary of the sanctions accorded in this order, and the cost of these temporary establishments will be met from the Budget provision under that head:—

The surplus of the cotton gin is a very important item in the cotton trade and it is very important that it should be properly disposed of.

making, to be for which
it required, the Govt
sanction. The Govt
sanction, by the Govt
sanction, accompanied
by a report of the
Govt Sanction on pre-
vious sanction.

3. The item for the
Kistna is sanctioned.

4. The Govt considers
that in Kistna &
many other Districts
the permanent es-
tablishments can
be more usefully
employed in ascertain-
ing and providing
for the requirements
of existing works
than in investigating
new projects, and the
survey establishments
asked for for the
latter.

1. The Govt cannot
sanction the item
in the investigation
sanction to allow of the
sanction of the dis-
charge of the Govt.
sanction, and, in-
sanction, survey com-
mitted with existing
sanction, works, the
sanction, & sanction, the
sanction, the Govt
in this District may
be allowed, but there
appears to be no sub-
sistent reason for
giving the survey
more than 10,000 the
sanction more than
6,000, these being
the rates prevailing
in contiguous Districts.
The establishment for
the extension of the
Sanction.

ation, no work of
the kind should
it present be under-
taken

13. The total amount
required in fact is
