In forwarding herewith, according to the practice of this office, a statement showing the ranges from which accounts were due on the 1st instant, I have the honour to observe that such statements in being prepared on the 1st of each month do not convey a correct idea of the arrears in accounts, and that in future I shall, in anticipation of the approval of Government, submit the statement on the 21st of each month, that being the date on which this office should, according to rule, be in possession of all the monthly accounts of the Presidency for the previous month.

2. The statement herewith submitted gives, at first sight, a very favourable result as regards punctuality in the submission of accounts by Range Officers; but the fact is that on the 21st of May, when *all* the accounts for April should have reached this office, the accounts from the following ranges were still due :—
