*Proceedings of the Madras Government, Public Works Department,
18th January 1873.*

No. 330. Read the following letter from the District Engineer, Presidency, to the Secretary to Government, Public Works Department, dated Fort St. George, 28th December 1872, No. 2,714 :—

In reference to G. O. dated 27th December 1872, ordering immediate execution of repairs to the Warrant Officer's quarters at Vesarapaudy, Powder Magazine, I have the honour to report that the estimate was duly sanctioned and funds allotted from savings, but the work was deferred at the request of the Conductor occupying the premises on account of matrimonial contingencies.

2. The work will be put in hand at once.

No. 331. ORDER THEREON, 18th January 1873, No. 165.

MILITARY WORKS, No. 9.

THE District Engineer asserts that the estimate referred to was sanctioned and funds allotted, while the Inspector-General of Ordnance and Magazines states that the Public Works Department intimated that no funds were available. From this and the circumstances rehearsed in G. O. No. 3,042 of 23rd December, it is evident that there is not that free inter-communication between the officers in question which would obviate all such misunderstandings and needless references to Government.

2. His Excellency the Governor in Council must again insist that this state of things be put a stop to.
