MADRAS RECORD OFFICE

Government of Madras

Public works

DEPARTMENT

G.O. No.	1684	Press
B.P. No.		Misr.
431-432		
Dated	30-6-	1873.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
30th June 1873.*

Read the following papers:—

No. 431. From Captain J. PENNYCUICK, R.E., District Engineer, North Arcot, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Camp at Callapally, 28th May 1873, No. 681.

I HAVE the honour to forward a statement, amounting to Rupees 1,030, of damages done to the Polur supply channel now in progress, and to request sanction to the sum of Rupees 1,030 in addition to the original estimate (sanctioned in G. O., No. 2,254, of 19th September 1870,) of Rupees 11,650.

1 Statement.
2. The form in which the statement is prepared has been adopted as being simpler and more appropriate under the circumstances than the ordinary comparative statement.

3. I should mention that no provision has been made for this work in the Budget of the current year, as it was expected to be completed before the end of March.

4. There is, however, an unexpended balance on the original estimate of Rupees 900, making the total amount to be provided Rupees 1,930.

No. . *Note by the Chief Engineer for Irrigation.*

THE District Engineer, North Arcot, has not reported on the damage sustained by the Polur channel in a way which will allow of supplemental sanction being given. He has not shown either what works sustained damage, or why such damage occurred, and as a dam raised only 9 inches above the bed of the river, and a channel provided with a head sluice should be comparatively free from liability to injury, it appears to be requisite that a full report should be made of the circumstances. Instructions have accordingly been sent to the District Engineer.

2. In order that the requisite appropriation to allow of the works being gone on with may be made, it is recommended that Rupees 1,500 be placed at Captain Pennycuick's disposal from the Reserve under Agricultural, Ordinary. The balance of the estimate is reported to be Rupees 900.

OOTACAMUND, (Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
10th June 1873. *Chief Engineer for Irrigation.*

No. 432. ORDER THEREON, 30th June 1873, No. 1,684.

IRRIGATION, No. 39.

IN accordance with the recommendation of the Chief Engineer for Irrigation Rupees 1,500 are placed at the disposal of the District Engineer, North Arcot, to enable the Polur channel works, sanctioned in G. O., 10th February 1872, No. 405, to be gone on with pending the submission of a full report on the damage sustained by them in 1872-73.
(True Extract.)

Lieut.-Colonel, R.E.,
Joint Secretary to Government.

To the Chief Engineer for Irrigation:
" District Engineer, North Arcot.
" Controller of Public Works Accounts.

North Arcot,
DISTRICT ENGINEER'S OFFICE

28th May 1878.

From

The DISTRICT ENGINEER,

NORTH ARCOT.

Camp Callapally

To

The Chief Engineer for Irrigation
Madras

Sir,

I have the honor to forward a statement amounting to Rupees 1030 of damages done to the Poloor Supply Channel, now in progress, and to request sanction to the sum of Rupees 1030 in addition to the original estimate (Sanctioned in G. O. No 2254 of 19th September 1870) of Rupees 11650.

Enclosure
Statement

2 The form in which the statement is prepared has been adopted as being simpler and more appropriate under the circumstances, than the ordinary comparative statement.

3 I should mention that no provision has been made for this work in the Budget of the current year, as it was expected to be completed before the end of March.

4 There is however an unexpended balance on the original estimate of Rs 900, making the total amount to be provided Rs 1930.

I have the honor to be
Your most obedient Servant
John Perry Esq. Capt. R.
Dist. Engineer North Arcot

Note by the Chief Engineer for Irrigation
 The District Engineer North West has
 not reported on the damage sustained
 by the Blue channel in a way which
 will allow of supplemental sanction
 being given. He has not shown either
 what works sustained damage, or
 why such damage occurred, and if
 as a dam raised only 9 inches
 above the bed of the river, and
 a channel provided with a head and
 sluice should be comparatively
 free from liability to injury, it
 appears to be requisite that a
 full report should be made of the
 circumstances. Instructions have
 accordingly been sent to the District
 Engineer.

2. In order that the requisite
 appropriation to allow of the
 works being gone on with may
 be made, it is recommended
 that Rupees 1,500 be placed at
