No. 39. ORDER THEREON, 2nd July 1873, No. 1,712.

ESTABLISHMENT, No. 4.

SUPERVISOR VYAPOORY PILLAY was degraded to the bottom of the list of his rank by G. O., No. 1,355, of 31st May 1872, which was communicated to him on the 8th June, with the order to join his new district. This he failed to do till the 10th August.

2. On the 7th October he obtained two months' leave of which he availed himself to proceed to Palamcottah. On the day after that leave expired he appears to have obtained from the Zillah Surgeon, and forwarded, a certificate that change of air and an extension of one month were absolutely necessary. Not till a fortnight after such extension expired did the Supervisor send in a certificate for two months' additional leave granted him on the 6th January. All this time (nearly four months) he persistently ignored all communications addressed to him by the District Engineer or Range Officer. One day after expiry of his second extension, certificate for two weeks' additional leave was given him at Palamcottah. A fifth certificate for twenty days' leave was given him at Madura on the 25th March, or five days after expiry of the former. He then appears to have gone back to Palamcottah, whence a final certificate of his unfitness for further service, dated 12th April, was at last forwarded.

3. This Certificate and the Supervisor's Register of Service will be forwarded for disposal in the Pension Department, with intimation that the date of unfitness should be considered to be that of the first renewal of the original leave, viz., the 7th December 1872. And to obviate any further improper procedure of a similar nature, all subordinates of the Public Works Department proceeding on leave will report themselves personally or in writing to the District Engineer within the limits of whose charge they may spend such leave, and supply him with duplicate of any application or certificate for extension of leave, in time to admit of receipt of the originals forwarded simultaneously to their immediate superiors

before the expiry of the leave. And it will be the duty of the District Engineer receiving such duplicate to ascertain the necessity or propriety of the extension applied for, and take action on the facts that come to his knowledge precisely as if the subordinate were employed under his own orders.

Sir,

With reference to your letter No. 375 dated March 17th 1873 I have the honor to report for the information of Government, that Sabapathy Pillay presented himself at the Palamcottah Civil Hospital on the 17th Inst. with a certificate, stating that he was on leave from Calicut, and produced a copy of certificate, but whether this was the identical one or not, I do not recollect; however he stated he was unable to join his appointment on account of weakness. His appearance bore out this testimony as he was in a very weak state of health, and stated that he had been suffering from dysentery for some time. I asked him

has to remain in hospital but he refused but attended as an out patient and received medicines. I had no hesitation in granting him a sick certificate. At the expiry of the month he was slightly better but still complained. I was therefore of opinion he should have two (2) months further leave of absence to enable him to regain his strength and faculties & him to recite when he pleased for he duty required for his recovery. A few days before the expiry of the two months he again presented himself unfavourable health but mentally. He wished fifteen (15) days further leave of absence and stated that it was his desire to join his appointment and then apply for pension as he had served a long time. (over 20 years) and felt unable to perform his duties. I granted him the fifteen (15) days and have not seen him since.

2. As to my opinion whether there is any

any probability of him ever doing any sub waste in the Department I should say not, as he is advanced in age and his constitution much impaired, and especially as he has had so much leave with no perfect recovery.

3. Should he again come under my hands I fear I would have to grant him a certificate of unfitness but refrain from giving a decided opinion.

I have &c
