Public Works DEPARTMENT

G.O. No.	1891	Press
B.P. No.		Mis.
422 433		
Dated	28. 7.	1873.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
23th July 1873.*

No. 432. Read the following letter from Major J O HASTED, R E, District Engineer, Kistna, to Colonel G W WALKER, R E, Secretary to Government, Public Works Department, dated Bezwarah, 28th June 1873, No. 40:—

I HAVE the honour to forward extract from a letter* from the Collector, and to request instructions as to the funds to which the works referred to should be charged.

* No 147, of 29th January 1873.

“Referring to G O, No 1,483, of 15th June 1872, Public Works Department, entry No 246, I have the honour to point out that—

1. The Accommodation Bridge across the Commamore Channel
2. The Chintaguntapollem Bridge across the Masulipatam Canal.
3. The Sevagunga self-acting sluice should not now be considered ‘Local Fund Works,’ but should appear in the progress reports of your subordinates as Imperial works of the Masulipatam Circle, while the money spent on them should be recovered from Imperial and credited to Local Funds”

2 The Accommodation Bridge across the Commamore Channel is that known as the Kolakalur Bridge, and referred to in G O, No 304, dated 30th January last, where it is directed that one moiety of the cost is to be charged to Imperial and the other to Local Funds. As this G O bears a subsequent date to that referred to by the Collector, I conclude that no alteration should be made.

Also G. O., No 1,676, 21st May 1869

3. The Chintaguntapollem Bridge across the Masulipatam Canal was sanctioned as Local Fund work by the Board of Revenue in their Proceedings, No 195, dated 29th January 1872. In G O, Financial Department, No. 231, 5th March 1872. The work is a restoration, the original bridge constructed from Imperial Funds,

having been so much damaged in the cyclone of 1864 that it became necessary to remove and rebuild it. The new bridge is on iron girders and is a much more substantial structure than the old bridge. If it is intended that the order directing that bridges which have been constructed when excavating a canal on existing lines of road are to be kept up from Imperial Funds is to have retrospective effect, the expenditure incurred on this work from Local Funds should be recovered.

4 The Sevagunga self-acting sluice was also sanctioned by the Board of Revenue in their Proceedings, No. 3,766, dated 18th June 1867, paragraph 6, as Local Fund Work. As the local drainage was improved by this work, it was considered to be fairly chargeable to

Local Funds, there is, however, some advantage to Government from the construction of the work, as by improvement of the drainage of the swamp, cultivation may be extended along the margin. I think that this work might fairly be charged between Imperial and Local Funds.

Proceedings of the Madras Government, Public Works Department,
23th July 1873.

No 433

ORDER THEREON, 23th July 1873, No. 1,891.

CIVIL WORKS, No. 23.

THE Government observe that G O, of the 15th June 1872, No 1,483, does not affect the incidence of the cost of the works referred to by the Collector of the Kistna District. The circumstances of these works were duly considered at the time the estimates were sanctioned, and there is no intention of making any alteration as regards the funds from which they are being carried out
