*Proceedings of the Madras Government, Public Works Department,
20th January 1873.*

No. 395. Read the following Endorsement of the Chief Secretary to Government, dated Fort St. George, 17th January 1873 :—

From the Inspector General of Ordnance and Magazines, to the Secretary to Government, Military Department, dated Fort St. George, 15th January 1873, No. 298 G :—

I HAVE the honour to bring to notice that the Magazines particularized in the margin,* situated in the Fort and under charge of the Ordnance Department, have never had their upright iron Lightning Conductors of the old pattern altered to the more recently adopted flat copper strips.

2. This has apparently been owing to these magazines having been, for some little time, abandoned as receptacles for powder and ammunition when St. George's Magazine had copper strip lightning conductors adapted to it.

3. The magazines alluded to, however, have now a considerable quantity of ammunition stored in them, and it appears advisable that they should be supplied with the most recent pattern of lightning conductors.

4. The work is estimated by the District Engineer, Presidency, to cost Rupees 900, and I solicit that sanction may be granted for the expenditure.

TRANSFERRED to the Public Works Department for disposal.
(Signed) W. HUDLESTON,
Chief Secretary to Government.

No. 396. ORDER THEREON, 20th January 1873, No. 192.

MILITARY WORKS, No. 12.

THE District Engineer, Presidency, will submit an estimate for the work referred to, and in the event of its meeting with the approval of His Excellency the Commander-in-Chief he will proceed with it in anticipation of sanction and a specific provision of funds.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Military Department.

- .. Inspector General of Ordnance and Magazines.
- .. Controller of Public Works Accounts.
- .. District Engineer, Presidency.
- .. Inspecting Engineer for Buildings.

No. 298

From,

Colonel H. Stewart R.A.

Inspector General of Ordnance and Magazines.

To

The Secretary to Government,
Military Department.

Sir,

(a)
Caldwell and
Grand Magazine.

I have the honor to bring to notice
that the Magazines particularized in the
Margin^(a), situated in the Fort and under charge
of the Ordnance Department, have never had
their upright iron lightning conductors of
the old pattern altered to the more recently
adopted flat copper strips. —

2. — This has apparently been owing to these
Magazines having been, for some little time,
abandoned receptacles for Powder and
Ammunition when St. George's Magazine had
Copper strip lightning conductors adapted to it.

3. — The Magazines alluded to, however, have
now a considerable quantity of Ammunition
stored in them; and it appears advisable that
they should be supplied with the most recent
pattern

pattern of lightning conductors.-

4.- The work is estimated by the District Engineer Presidency to cost Rs. 900, and I solicit that sanction may be granted for the expenditure.-

I have the honor to be,

Sir,

Your most Obedt. Servant.

W. Stewart, Coll. A. A.
