Proceedings of the Madras Government, Public Works Department
4th August 1873.

No. 48. Read the following letter from Major J. BEATTY, R.E., District Engineer, Vizagapatam, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Waltair, 3rd July 1873, No. 607 :—

I HAVE the honour to inform you that when the Jeypore Ghaut Works were commencing in last official year, I obtained three tents from the Public Works Stores for the office of the Special Assistant Engineer, Jeypore Ghaut Works, intending to meet the outlay* from the grant of that year for "Tools and Plant, Provincial," under which head there was then a balance available; but as the bill was not furnished to me within the year, I was unable to settle it.

* 2. The bill has now reached me, and the Superintendent of the Public Works Stores informs me that cash payment is not necessary, as it should apparently be met from "Tools and Plant, Imperial," and settled by transfer adjustment; but an appropriation must be made.

3. The allotment of Rupees 200, however, assigned to this district from Imperial funds, has already been appropriated to the extent of Rupees 143 for the purposes shown in the margin, leaving a balance of Rupees 57 which is insufficient to meet the demand in question.

4. I have, therefore, the honour to request you will be good enough to have an additional grant of Rupees 1,210† placed at my disposal from the allotments of other districts to meet this charge, and the cost of office furniture reported in my statement‡.

† This includes Rupees 68 required for the purchase of the three tents sanctioned in G. O., No. 1,399, of 21st May 1873.
‡ Submitted with letter, No. 125, of 18th April 1873.

No. 49. ORDER THEREON, 4th August 1873, No. 1,940.

ACCOUNT, No. 4.

THE District Engineer of Vizagapatam is informed that the purchase of the tents applied for in this letter from the Reserve under "Tools and Plant" is sanctioned, but as it is impossible that three tents can be required for the office of the Special Assistant Engineer, Jeypore Ghaut Works, it must be distinctly understood that two of the tents will be intended to meet the requirements made in the requisition for office furniture which accompanied the District Engineer's letter, No. 125, dated 18th April 1873.

1. The first of these is the
 fact that the population of
 the country is increasing
 rapidly. This is due to
 the fact that the birth rate
 is higher than the death rate.
 The second fact is that the
 population is becoming more
 urban. This is due to the
 fact that more people are
 moving to the cities for
 work and education.

The third fact is that the
 population is becoming more
 educated. This is due to the
 fact that more people are
 attending school. The fourth
 fact is that the population is
 becoming more mobile. This
 is due to the fact that more
 people are moving from one
 place to another. The fifth
 fact is that the population is
 becoming more diverse. This
 is due to the fact that more
 people are coming from
 different parts of the world.
 These are the five main
 facts about the population of
 the country.
