Public Works DEPARTMENT

G.O. No.	1945	Press
B.P. No.		Mis.
58-59		
Dated	5. 8.	1873.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
5th August 1873.*

No. 58. Read the following letter from Major J. O. HASTED, R.E., District Engineer, Kistna, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Masulipatam, 5th June 1873, No. 32:—

REFERRING to G. O., No. 871, dated 19th March 1873, I have the honour to inform you that Yetti wood, in Telugu "Mooste," is very common in the jungles in Nuzid Zemindary, and is habitually used at our lime kilns at Kistnaveram mixed with other wood. I am informed that not more than one-seventh of the wood used is Yetti wood, and that no deleterious effects have been noticed when it is used in this proportion. I learn also from natives that the wood is commonly used for fuel in their houses without evil effects.

2. Under these circumstances, I have not considered it necessary to prohibit the use of the wood.

No. 59. ORDER THEREON, 5th August 1873, No. 1,945.

ESTABLISHMENT, No. 4.

ORDERED to be communicated to District Engineers in continuation of G. O., No. 871, of 19th March. So much of which as absolutely prohibits the future use of charcoal made of the "Yetti maram" is modified into a prohibition against using it unmixed with other charcoal in sufficient proportions to nullify its undoubtedly deleterious effects.

2. The "Yetti maram" is the *Strychnos nux vomica* of Botanists, and Range Officers must be careful to guard against such fatal accidents as that which elicited the order above quoted.

(True Extract.)

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government.

Camp Masulipatam
5 June 1873.

From

Major J. O. Hasted R.E.
District Engineer
Kistna.

To

Colonel G. W. Walker R.E.
Secretary to Government
Public Works Department.

Sir,

Referring to G.O. No 871 dated
19th March 1870, I have the honor to
inform you that Yetti wood in Telugoo
"Kushte", is very common in the jungles
in the Zamin-dari, and is habitually
used at our lime kilns at Kistnawaram
mixed with other wood - I am informed
that not more than $\frac{1}{3}$ of the wood
used is Yetti wood, and that no
deterious effects have been noticed
when it is used in this proportion -
I learn also from natives that the
wood is commonly used for fuel
in their houses, without evil effects.

Under these circumstances
I have not considered it necessary
to prohibit the use of the woods.

I have the honor to be
Your most obedient servant

John A. Majors

District Engineer Arizona
