*Proceedings of the Madras Government, Public Works Department,
6th August 1873.*

No. 80. Read the following Endorsement of the Inspecting Engineer for Civil and Military Buildings, dated Bangalore, 24th July 1873, No. 822:—

From Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, to Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, dated Fort St. George, 9th July 1873, No. 1,590.

WITH reference to G. O., No. 1,603, dated 19th June 1873, and your letter No. 713, dated 30th June 1873, I have the honour to submit, for your approval and eventual submission to Government for sanction, if necessary, a revised plan and estimate, together with a specification report, amounting to Rupees 80, for constructing a gram-boiling shed near the stables in the compound of the Egmore Police Court, Madras, which have been prepared on more economical principles as ordered by Government, and approved both by Commissioner of Police and the Inspector-General of Police. The walls are now to be brick-in-clay, and the roof palmyrah rafters, etc.

2. As regards the delay in the submission of the estimate, I have no explanation to offer beyond the fact that I misinterpreted the order. I understood it to mean that the Superintending Engineer was to provide for this work in his Budget, and after receipt of the Budget I took immediate action. This was, I now see, a mistake.

THE plan and estimate of Rupees 85, accompanied by a specification, for constructing a gram-boiling shed near the stables in the compound of the Egmore Police Court, Madras, are submitted to Government for sanction,
