*Proceedings of the Madras Government, Public Works Department,
5th September 1873.*

No. 86. Read the following endorsement of the Inspecting Engineer for Civil and Military Buildings, dated Chepauk, 22nd August 1873, No. 981:—

From Major R. F. OAKES, R.E., District Engineer, Tanjore, to Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, dated Tanjore, 18th August 1873, No. 515.

I HAVE the honour to forward, for sanction, plan and estimate amounting to Rupees 1,730, duly countersigned by the Collector, for the repair of the Taluq Cutcherry at Nunnillum.

2. An estimate of Rupees 578 was sanctioned last year for the repair of the roof of this building. On removing the tiles to proceed with the work it was found that a large number of the bamboos, rafters, and some of the wood-work, which had a fair appearance from below, were so completely rotten as to render the re-roofing of the building, with almost entirely new materials, necessary. An estimate was accordingly prepared including also certain improvements, but the late Collector, Mr. Cadell, declined to countersign it, as he was of opinion that it would be preferable to build an entirely new building than to repair the existing building, the walls of which are of brick-in-mud.

3. It has now been determined to repair the existing building, to which certain additions and alterations have to some extent been carried out, under the arrangements made for providing improved sub-jail accommodation. The estimates sanctioned for these improvements, and the expenditure incurred upon them till the stoppage of the works under the restrictive orders of G. O., No. 4,015, dated 28th December 1869, were as follow:—

			Estimate.	Expenditure.		
			RS.	RS.	A.	P.
Police Guard-room and out-houses	...	...	2,060	619	9	7
Alterations to the existing building	...	...	1,075	903	2	9
				1,522	12	4

4. A further sum of Rupees 183-10-8 has been expended in the collection of certain materials on the estimate of Rupees 578 above alluded to; the balance of this estimate has now been cancelled, and the necessary reduction on account of the materials has been made in the enclosed estimate, which otherwise would amount to Rupees 1,913.

5. The enclosed estimate provides for the thorough repair of the building including the alterations provided for in the estimate of Rupees 1,075, which remained to be carried out when the work was stopped, and also for renewing the upper two feet of the walls with brick-in-chunam. The building, if repaired as now provided for, will last for years, and when the Police guard-room, etc., are completed the value of the building will be as follows:—

			RS.	A.	P.
Value of original building as per Dead Stock Register	...	...	736	6	0
Cost of alterations already carried out	...	...	903	2	9
Police Guard-room and out-houses	...	...	2,060	0	0

The enclosed Estimate provides for the thorough repair of the Building including the alterations provided for in the Estimate of Rs 1075, which remained to be carried out when the work was stopped, and also for renewing the upper two feet of the walls with brick in plumb and. The Building, if repaired as now provided for, will last for years, and when the Police guard Room &c are completed, the value of the Building will be as follows.
