Dated	11. 9.	1873 195

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
11th September 1873.*

No. 160. Read the following letter from R. F. CHISHOLM, Esq., F.R.I.B.A., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 21st July 1873, No. 437 :—

I HAVE the honour to state that nearly all the good earth about the Government kiln has been used up for making bricks, and I should feel greatly obliged if the Government will be pleased to grant me an extension of the property. I enclose a plan of the yard, and I have marked in red the additional land required, and beg that it may be taken up under the Act. As the land is merely pasturage the cost should not be heavy.

2. I will defer sending in a report of the working of the patent kiln until the season is closed, and I can quote reliable figures. I may state however that the kiln is now burning the fifth round satisfactorily, having produced nearly nine lacs of bricks, that the saving in fuel is 50 per cent., and that there is scarcely any loss in the out-turn. After the experience of the first season, I hope to get even more satisfactory results.

No. 161. ORDER THEREON, 11th September 1873, No. 2,245.

CIVIL WORKS, No. 10.

THE Collector of Madras will be instructed, in the Revenue Department, to ascertain whether the land can be obtained by private agreement for a reasonable price, and if not he will proceed to take the necessary steps for acquiring it under the Act.

To

Colonel G. W. Walker R.E.
Secretary to Govt. P. W. D.

Sir,

I have the honor to state that nearly all the good earth about the Government Kiln has been used up for making bricks and I should feel greatly obliged if the Government will be pleased to grant me an extension of the property. I enclose a plan of the yard, and I have marked in red the additional land required, and I beg that it may be taken up under the Act. As the land is merely pasturage the cost should not be heavy.

I will defer sending in a Report of the working of the patent kiln until the season is closed, and I can quote reliable figures. I may state however that the kiln is now burning the th round satisfactorily having produced nearly 9 laes of bricks that the saving in fuel is 50 percent and that

I have the honor to be

show the bones
can be obtained

by private agreement
for a reasonable price
that it will be well
for said W. D. to take the
necessary steps for
regaining the same.

But he has then
will sell by direct
agreement for a less
small price of \$
and then to the
first, he had not
have recourse to the
act.

Ordered that the prescribed notification be published, and that the collector of miasas be authorized to take the necessary steps for the acquisition of the land required for the extension of the existing Government

Brickfield-

Notification

Under the provisions of Section 6 Act V of 1870, His Excellency the Governor in Council of Fort Saint George hereby declares that all that piece of land situate in the village of Egmore in the Madras District and adjoining the present Brickfield, measuring 3 Cawnies

and 21 grounds³, is required for a public purpose, namely the extension of the above Brickfield.

A plan of the land may be inspected at the office of the Government Consulting Architect, Madras-
