To Colonel Mauley.

Supg. Engineer 11th Regt.

Sir,

I have the honor to bring to
 your notice that there is not any Dead
 Room in the S. Geo. Hospital, and I
 ask the favor of your orders to have one
 erected. I have examined the old plans
 of that Institution as also the present
 out houses, and I have questioned two
 Servants, one of 23 and one of 20 years
 service there, and they does not seem
 ever to have been a Dead House. The
 persons who have died there have hitherto
 been taken into a Coach house and the
 Coach ^{house} is so utilized even today, when
 not required for a Carriage, it was filled
 with the Matron's Carriage which had
 to be taken out whenever a dead body
 needed to be placed. This state of things
 is very unusual in an Institution
 of this kind, has been still more un-
 satisfactory owing to the Cook room for the
 pupils (a) adjoining the same block
 with (b) the Coach house -

2 I would esteem as a favor the early issue of your orders to erect a dead house twelve feet square, at the N.W. part of the grounds, at a site which I have shown to Colonel Gaddard. It should have a suitable door with facing towards the North; it must not be an expensive structure, as it is not desirable to erect any expensive buildings on the present site.

I have &c
