To The Joint Secretary

I have no objection to the additions proposed above, but it appears to me that the Controller's inquiry to whether the sum will be able to carry out the order of the 4 June (G.O. 1488) when that the adjustment of the 4000 Rupees can be made. 439 Rupees will be found at the disposal of the Board for

It is observed that an aggregate grant of Rs. 8687 was made for the construction of the Tamarian Dam during the last official year, when it is believed the work was completed. Of this sum the Controller of P.W. Accounts was specially authorized in G.O. No. 1488 dated 4th June 1873 to appropriate Rs. 4402 in order to repay the moiety of the cost of the work which had been advanced by the Local Fund Board, leaving Rs. 4,285 to meet the other moiety. Under these circumstances it does not appear that any additional grant is required in the current year, and the budget provision of Rs. 4000 was
