ABSTRACT.—*Public Works* in Bellary District.—Collector's report on—, submitted to Government with remarks.

No. 223. ORDER THEREON, 16th September 1873, No. 2,278.

CIVIL WORKS, No. 15.

COMMUNICATED to the District Engineer, Bellary.

2. The reports show that a considerable portion of the allotments made to the district were allowed to remain unutilized at the end of the year, one of the most important works on which short expenditure is especially noticeable being the Gootloor Tank restoration, the circumstances connected with which are reviewed in the orders of the 2nd September 1873, No. 2,184.

3. The surrender of the allotment made for diverting the flood waters near Cullamuddy is also unsatisfactory, authority having been conveyed for the immediate commencement of the work during the month of January.*

* G. O., No. 256, dated 27th January 1873.

4. The progress of Civil Buildings in the Bellary District during the year 1872-73 came under the consideration of Government in the orders noted in the margin, and no further notice of the subject seems necessary here.
